The CITY reserves the right to reject any Proposal if the evidence submitted by, or investigation of, such Bidder fails to satisfy the CITY that such Bidder is properly qualified to carry out the obligations of the Contract and complete the work contemplated therein.
- 2.14 **CONTRACT TIME**
The CONTRACTOR agrees to perform the work within the time stated in the Bid Response Form, that being NINETY (90) calendar days. The Bidder in submitting an offer accepts the conditions of the contract period stated for performing the work.

2.15 **CONSTRUCTION DOCUMENT IDENTIFICATION**

The Construction documents are the Bid and Contract Documents, Specifications, Drawings, Addenda, and all other related documents bearing the Project Title and Number. Bidders shall use complete sets of Construction Documents in preparing their Bids. The CITY will not assume responsibility for errors or misinterpretation resulting from the use of incomplete sets of Construction Documents.

2.16 **BID ACCEPTANCE**

Generally: The Contract will be awarded to the lowest responsible and responsive Bidder, unless the CITY determines that all the bids are unreasonable or that it is not in the best interest of the CITY to accept any of the bids.

2.16.1 Award of the Contract will be made on the basis of the lowest actual bid amount for the Contract, which is defined as the total of the bid option accepted and/or extended total amounts for unit price items, pursuant to the provisions hereof.

2.16.2 The CITY reserves the right to reject all bids and/or reject and rebid the Project should it determine the same is in the best interest of the CITY.

2.16.3 Minor irregularities as determined by the CITY or its representatives, will not cause a bid to be **non-responsive** and may be waived by the CITY.

2.16.4 Bidder must possess all licenses and permits required by applicable law, rule or regulation for the performance of the work **prior** to bidding. The Awarded Vendor must register with the City by use of the New Vendor Information packet found on the City's Website, or by phoning 251 928-8003 Ext 448 or 419.

2.16.5 Where the CITY elects to prequalify Contractors prior to bidding, it shall be understood that such prequalification may be general in nature and shall not limit the CITY'S right to revoke such prequalification pursuant to Ala. Code §39-2-4(d) (1975).

2.16.6 Joint ventures shall not generally be considered acceptable bids without special waiver from the CITY, which must be requested in writing at least thirty (30) days prior to bid opening.

2.16.7 **No Bids or Only One Bid:** In the event no bid proposals or only one bid proposal is received in response to the CITY'S Advertisement for Bids at the time stated for the opening of bids, the CITY may elect at its discretion, any of the following options:

2.17 **BIDDERS INTERESTED IN MORE THAN ONE BID**

If more than one bid is offered by any one party, by or in a name of his clerk, partner, corporation in which he has a substantial interest, or in which he is an officer, or other person, all such bids may be rejected. A party who has quoted prices on materials to a bid is not thereby disqualified from quoting prices to other Bidders or from submitting a bid directly for the materials or work. The CITY reserves the right to determine in its discretion whether the provisions of this clause have been violated by any Bidder.

2.18 **ERRORS IN BIDS**

Bidders or their authorized agents are expected to examine the maps, drawings, specifications, and all other instructions pertaining to the work, which will be open to their inspection. Failure to do so will be at the Bidder's own risk. In case of error, in the extension of prices the unit price will govern.

2.19 **EXCEPTIONS / CHANGES TO SPECIFICATIONS**

A request for a change in the specifications to accommodate a variation must be called to the attention of the Purchasing Manager at least 72 hours before the bid opening date. All requests for such changes will be considered and the merits weighed. Only those changes in specifications deemed to be in the best interest of the CITY will be made. In the event of a change in specifications, an addendum will be supplied to Bidders.

Exceptions may be accepted if they are minor, equal, or superior to that which is specified, and provided that they are listed and fully explained on a separate page entitled, "Exceptions to Specifications". The exceptions shall refer to the specification page and paragraph number. The CITY shall determine which (if any) exceptions are acceptable and this determination shall be final.

2.20 CONTRACT AND BOND

The Bidder to whom award is made must, when requested, enter into written Contract on the standard form as set out herein, with satisfactory security in the amount required, evidence of insurance, and all other submittals required for Contract execution, within the period specified, or, if no period be specified, within 15 days after the required forms are presented for signature.

2.21 COLLUSION

If there is any reason for believing that collusion exists among the Bidders, any or all bids may be rejected, and those participating in such collusion may be barred from submitting bids on the same or other work with the CITY.

2.22 SUBLETTING OR ASSIGNING OF CONTRACT

Limitations: The CONTRACTOR shall not sublet, assign, transfer, convey, sell or otherwise dispose of any portions of the contract, his right, title, or interest therein, or his power to execute such contract, to any person, firm or corporation without written consent of the CITY, and such written consent shall not be construed to relieve the CONTRACTOR of any responsibility for the fulfillment of the contract. Unless otherwise stipulated in the proposal or special provisions, the contractor shall perform with his own organization, and with the assistance of workmen under his immediate superintendence and reported on his payroll, all contract work of a value not less than 50 percent of the total contract amount, except that any items designated in the contract as "Specialty Items" so performed by sub-contract may be deducted from the total contract amount before computing the amount of work required to be performed by the CONTRACTOR with his own organization.

2.22.1 Sub-contractor's Status: A Sub-contractor shall be recognized only in the capacity of an employee or agent of the Contractor and the Contractor will be responsible to the CITY for all of the subcontractor's work, including failures or omissions; and his removal may be required by the Project Manager, as in the case of an employee.

2.23 PROSECUTION OF WORK

The Contractor shall commence work on the date stipulated in the Notice to Proceed (NTP), or as otherwise directed in writing. Contractor is responsible for obtaining permit from the City of Fairhope Building Department prior to commencing any site activity work.

2.23.1 The Contractor shall prosecute the work continuously and diligently in the order and manner set out in his schedule as approved by the Project Manager. He shall provide sufficient satisfactory materials, labor, and equipment to insure that the work will be completed in a satisfactory manner within the time specified in the contract.

2.23.2 Should the Contractor fail to maintain a satisfactory rate of progress; the Project Manger may require that additional forces and/or equipment be placed on the work to bring the project up to schedule and maintain it at that level.

2.23.3 Should the Contract fail to furnish sufficient satisfactory equipment and/or labor for maintaining the quality and progress of the work at satisfactory level, the Project Manager may withhold all estimates that may become due until satisfactory quality and progress are maintained; or the contract may be annulled.

2.24 MATERIALS AND WORK CREW

All materials, which the engineering plans specify or are required, will be installed as they are shown on the drawings, plans and/or specs.

2.24.1 Brand names, catalog numbers, weights, etc., are used to indicate levels of quality only and are not intended to restrict the bidding. If bidding on an item of another brand or manufacturer than that specified, Bidder's bid should be accompanied by brochures or other pertinent literature giving detailed specifications of the item(s) on which the bid is being made. Bids received without sufficient literature to determine equal quality may not be considered. Final determination as to equal quality will be made by the CITY.

2.24.2 Quantities: The quantities shown in the bid packet shall be considered by the contractor as the quantities required to complete the work for the purpose of bidding. During the course of work, the prices bid for adjustment items may be used by the CITY to increase or decrease the total cost for the work if the quantity of work exceeds or is less than the amount shown on plans.

2.24.3 Construction Crews: The Contractor will be required to furnish at least one separate construction crew during the work as set forth in the contract. Unless waived by the CITY, the Contractor shall perform on the sites and with his own organization and equipment, at least fifty percent of the total amount of the work to be performed under this Contract. The Contractor may only subcontract a maximum of fifty (50%) percent of the work without CITY consent. If, during the progress of the work hereunder, the Contractor requests a reduction of such percentage, and the CITY representative determines that it would be to the CITY's advantage, the percentage of the labor required to be performed by the Contractor's own organization may be reduced; PROVIDED prior written approval of such reduction is obtained by the Contractor from the CITY.

2.25 GENERAL CONTRACTOR'S LICENSE

The attention of all Bidders is called to the provisions of the State law governing General Contractors as set forth in Ala. Code §34-8-1 et seq. (1975), particularly in regard to the need for and evidence of a State General Contractor's license. The provisions of said statute are adopted herein by reference and form a part of the Contract with the selected Bidder should this Project be awarded. **Bidder MUST include with his bid a State of Alabama Contractor's current license number and a copy of the license. State law, Ala. Code §34-8-8(b) (1975) requires all bids to be rejected which do not contain General Contractor's license number on the outside of the bid response sealed envelope.**

2.25.1 Bidders are reminded that they will be governed by said statutes insofar as they are applicable. To summarize the above quoted statutes, Ala. Code §34-8-1, et seq. (1975) provides that no one is entitled to bid, and no contract may be awarded to anyone who does not possess a valid general contractor's permit or license, including specialty classifications for the work, as provided by the foregoing sections of the State Code, and rules and regulations promulgated pursuant thereto and that said bid may not be considered without evidence being produced that he is so qualified. Trade Contractors must be duly licensed in accordance with applicable law.

2.25.2 CONTRACTOR must be properly licensed to obtain City of Fairhope permits and perform the work as outlined in the Scope of Work. Bidder must have a current business license or purchase a business license with the City of Fairhope prior to or (upon) bid being awarded. Sub-contractors must also comply with this provision.

2.26 U. S. PRODUCTS PREFERENCE

The successful Bidder (Contractor) shall comply with Ala. Code §39-3-1 (1975), shall agree to utilize in the execution of the Project, materials, supplies and products manufactured, mined, processed or otherwise produced in the United States or its territories, if the same are available at reasonable and competitive prices and not contrary to any sole source specifications. It is further stipulated that a breach of the foregoing provision of this agreement by the contractor in failing to utilize domestic products shall result in a downward adjustment in the Contract price equal to any realized savings or benefit to the Contractor.

2.27 USE OF DOMESTIC STEEL

The attention of all Bidders and that of the successful Bidder (CONTRACTOR) is drawn to Ala. Code §39-3-4 (1975), requiring the use of steel produced within the United States for municipal construction projects when specifications in the Construction Contract require the use of steel and do not limit its supply to a sole source. This provision is subject to waiver if the procurement of domestic steel products becomes impractical as a result of national emergency, national strike or other causes. Violations of the use of domestic steel requirements shall result in a downward adjustment in the Contract price to equal any savings or benefit to the CONTRACTOR.

2.28 IN STATE BIDDER PREFERENCE

Pursuant to Ala. Code §39-3-5 (1975), in the letting of public Contracts in which municipal funds are utilized, except those Contracts funded in whole or in part with funds received from a federal agency, preference shall be given to resident contractors, and a nonresident Bidder domiciled in a state having laws granting preference to local contractors shall be awarded Alabama public Contracts only on the same basis as the nonresident Bidders' state awards contracts to Alabama contractors bidding under similar circumstances; and resident contractors in Alabama, as defined in Ala. Code §39-2-12 (1975), be they corporate, individuals or partnerships, are to be granted preference over non-residents in awarding of contracts in the same manner and to the same extent as provided by the laws of the state of the domicile of the nonresident. **The CITY may not enter into a Contract with a nonresident corporation that is not qualified under the State law to do business in Alabama.** Except for contracts funded in whole or in part by funds received from a federal agency, preference shall be given to resident contractors on the same basis as the non-resident Bidder's state awards contracts to Alabama contractors bidding under similar circumstances.

2.29 **APPLICABLE LAWS**

Each Bidder shall inform himself of, and the Bidder awarded a contract shall comply with federal, state, and local laws, statutes, and ordinances relative to the execution of the work. This requirement includes, but is not limited to, applicable regulations concerning minimum wage rates, the use of domestic products, U.S. steel and resident labor, non-discrimination in the employment of labor, protection of public and employee safety and health, environmental protection, the protection of natural resources, fire protection, burning and non-burning requirements, permits, fees and similar subjects. The attention of all Bidders is called to the fact that the work will be subject to compliance with all applicable CITY building and technical codes, including environmental ordinances. Project will be subject, in addition to all other inspections, to inspection by a representative of the City of Fairhope Building Inspections Department.

2.30 **COMPLIANCE WITH IMMIGRATION LAW**

By signing this Contract, the contracting parties affirm, for the duration of the agreement, that they will not violate federal immigration law or knowingly employ, hire for employment or continue to employ an unauthorized alien within the State of Alabama. Furthermore, a Contracting party found to be in violation of this provision shall be deemed in breach of the agreement and shall be responsible for all damages resulting therefrom, to the extent allowed by Federal law (SEE ITEM XI, ALABAMA IMMIGRATION ACT CONTRACT REQUIREMENTS).

They are not to be used on other work and are to be returned to the CITY on request at the completion of the Project. Any reuse of these materials without specific written verification or adaptation by the CITY will be at the risk of the user and without liability or legal expense to the CITY or Engineer of Record. Such user shall hold the CITY and Engineer of Record harmless from any and all damages, including reasonable attorneys' fees, from any and all claims arising from any such reuse. Any such verification and adoption shall entitle the CITY to further compensation at rates to be agreed upon by the user and the CITY.

ARTICLE II PAYMENTS, CLAIMS AND CHARGES, ETC.

- 2.0 Contract Price: The CITY will pay and the CONTRACTOR will accept in full consideration for the performance of the work/Project, subject to additions and deductions (including but not limited to liquidated damages) as provided in the Contract Documents and herein, the sum of _____ (\$ _____), and/or in unit prices as shown in Bidder's schedule for the base bid amount of (\$ _____) being the amount of the CONTRACTOR'S bid as awarded by the CITY.

- 2.1 Estimated Quantities and Unit Prices: If award was made in whole or in part based upon unit prices, the CONTRACTOR agrees that the prices given in the Proposal are unit prices. The estimated quantities as stated in the Advertisement for Bids and in the Proposal and as indicated on the plans or in other places are approximate only, are subject either to increase or decrease and are only for the purpose of comparing on uniform basis the bids offered for the Project under this contract. The CONTRACTOR further agrees that should the quantities of any of the items of the work be increased, he will do the additional work at the unit prices set out in the Proposal and should the quantities be decreased, payment will be made on actual quantities at the unit prices and he will make no claim for anticipated profits for any decrease in the quantities. Actual quantities will be determined upon completion of the Project.
- 2.2 Overtime Work by CONTRACTOR: If the CONTRACTOR for his convenience, and at his own expense, should desire to carry on his work at night or outside regular hours, he shall submit written notice to the Engineer of Record and he shall allow ample time for satisfactory arrangements to be made for inspecting the work in progress. At no time shall the notice be given less than 24 hours before such overtime work is started. The CONTRACTOR must obtain, through the Engineer/ Architect, the CITY'S approval for work at night, on Saturdays, Sundays or legal holidays. The shall light the different parts of the Project as required to comply with all applicable federal and state regulations and with all applicable requirements of the CITY.
- 2.2.1 Overtime hours shall be considered any hours worked by the CONTRACTOR on Saturday, Sunday and legal holidays, which in the Engineer of Record's opinion requires the Engineer resident observers' presence to observe such overtime work. Overtime hours requiring the CITY inspectors shall be considered any hours worked by the CONTRACTOR in excess of eight (8) hours during any working day and/or in excess of forty (40) hours from Monday through Friday and/or any time on Saturday, Sunday or legal holiday. In general, it should be expected that the Engineer of Record's resident observer(s) or CITY'S inspectors will be present at all times that the CONTRACTOR is working.
- 2.2.2 If the CONTRACTOR elects to schedule and perform overtime work, the CONTRACTOR shall pay the CITY for the CITY'S resident inspector's salary plus costs for each hour of overtime work. Overtime shall be rounded up to the nearest whole hour. This amount shall include the inspector's salary at overtime rate, labor additive, which includes insurance, social security, Workmen's compensation, sick pay, paid holidays, vacation pay and his vehicle and equipment. Payment to the CITY shall be made by a deduction from the CONTRACTOR'S monthly payment invoice for any overtime worked.
- 2.3 Payments on Account/Payments Withheld/Retainage: Upon presentation of a verified application for payment, which shall include a "CONTRACTOR'S Affidavit of Payment of Debts and Claims," then usually by the fifteenth (15th) day of each calendar month or as soon thereafter as is practical, as the Project progresses, the CITY shall make partial payments to the CONTRACTOR of the billable work performed less payments already made and less deductions for any incomplete, unaccepted or defective work. In making partial payments to the CONTRACTOR, there shall be retained five (5%) percent of the estimated amount of work done and value of materials stored on the site or suitably stored and insured off-site. Provided; however, after fifty percent (50%) of the Project has been satisfactorily completed, no further retainage will be withheld.
- 2.3.1 Retainage shall be held until final completion and acceptance of all work covered by the Contract Documents unless escrow or deposit arrangements are agreed to by the CITY. When maintenance periods are included in the Contract Documents covering highways, bridges or similar structures, such period shall be considered a component part of the contract and retainage will be held until the expiration of such periods.
- 2.3.2 On completion and acceptance of each separate building, public work or other separately identifiable and complete division of the Project in regard to which a separate price has been stated in the Contract Documents or can be separately ascertained, payment may be made in full including retainage but less deductions. Provided; however, the CITY will not consider making such payment on any such item of work if it is an integral part of a complete project.
- 2.3.3 All materials and work covered by partial payments as provided for herein shall become the sole property of the CITY; provided, however, the CONTRACTOR shall not be relieved from the sole responsibility for the care and protection of materials and work upon which payments

have been made and for the restoration of any damaged work.

- 2.3.4 The CITY may also withhold from time to time from payment to the CONTRACTOR such an amount or amounts as may be necessary to pay and fully satisfy all claims and demands for labor and services rendered in and about the Project, including any such amount or amounts due to be paid to or by any subcontractor or supplier, amounts for CITY'S or Engineer of Record's observers or inspectors for CONTRACTORS' overtime as herein provided, or for engineering or design services associated with CONTRACTOR initiated change orders or submittals in excess of that permitted herein. The CONTRACTOR hereby authorizes the CITY as its agent, to apply such amounts so withheld to the payment of any amount so due to be paid and all other just and lawful claims other than claims for damages for tort. In case of disagreement with reference to any such claim or claims, the CITY may keep such amounts so withheld on account of such claim or claims until such disagreement is finally settled and determined.
- 2.3.5 In addition, the CITY may also withhold payment of the whole or any part of a verified or approved application for payment from the CONTRACTOR to such an extent as may be necessary to protect itself from loss on account of any of the following causes discovered subsequent to its verification or approvals:
- 2.3.5.1 Defective work.
- 2.3.5.2 Evidence indicating probable filing of claims by other parties against the CONTRACTOR.
- 2.3.5.3 Failure of the CONTRACTOR or subcontractor to promptly make payments to subcontractors or for materials, labor, food stuffs and supplies.
- 2.3.5.4 Damage to another contractor under separate contract with the CITY.
- 2.3.5.5 Assessment of liquidated damages.
- 2.3.6 When the above grounds are removed, applications for payment will then be verified and/or approved for amounts not previously verified and approved because of them.
- 2.3.7 The CONTRACTOR shall not attempt to withdraw at any time during the term of this Contract or any extensions thereof, without the expressed written consent of the CITY, the whole or any part of the amounts so retained by the CITY from payments due the CONTRACTOR by the establishment of an escrow account or by depositing securities in lieu thereof, pursuant to Ala. Code §39-2-12(e), or(f), or any amendments thereto or any equivalent law, ordinance or regulation. It is expressly agreed between the parties hereto that should the CITY elect not to consent to the same, then the CONTRACTOR shall not elect to, attempt to or in any manner endeavor to withdraw such retained amounts.
- 2.4 Claims for Extra Cost: If the CONTRACTOR claims that any instructions by drawings or otherwise involve extra cost or any extension of time, he shall notify the CITY in writing within ten (10) days after the receipt of such instructions and in any event before proceeding to execute the Project, the procedure shall be the same as that for change orders. No such claim shall be valid unless made in accordance with the terms of this section. There shall be no damages for delay.
- 2.4.1 Except as otherwise herein provided, no charge for any extra work will be allowed unless the same has been duly authorized in writing by the CITY and the price stated in such order.
- 2.5 Differing Site Conditions: If, in the performance of the Contract, subsurface or latent conditions are found to be materially different from those indicated by the plans and specifications, or unknown conditions of an unusual nature are disclosed differing materially from conditions usually inherent in work of the character shown and specified, the CONTRACTOR shall immediately notify the Engineer/Architect in writing regarding such conditions but in no event later than forty-eight (48) hours after discovery of such conditions by the CONTRACTOR.
- 2.5.1 The written notice shall describe the conditions, and other pertinent information, in no event shall such notice be later than forty-eight (48) hours before such conditions are disturbed. Upon such notice, or upon such observation of conditions, the Engineer/Architect will promptly make such changes in the plans and/or Specifications as he finds necessary (if any are necessary) to

conform to the different conditions, and any increase or decrease in the cost of the Project resulting from such changes may be adjusted as provided under Change Orders or Claims for Extra Cost as set forth in the Contract documents.

- 2.6 **Change Orders:** Change orders shall be allowed only under the following conditions:
- 2.6.1 Minor changes for a total monetary amount less than that required for competitive bidding; or
 - 2.6.2 Changes for matters incidental to the original contract necessitated by unforeseeable circumstances arising in the course of work under the contract; or
 - 2.6.3 Changes due to emergencies; or
 - 2.6.4 Changes provided for in the original bidding and original Contract Documents as alternates;
 - 2.6.5 Changes of relatively minor items not contemplated when the plans and specifications were prepared and the Project was bid and which are in the public interest and generally do not exceed 10 percent of the Contract Price, subject to Alabama Bid Law exceptions.
 - 2.6.6 The CONTRACTOR or successful bidder is expected to complete the Project as bid and specified within the financial parameters stated therein. However, if it shall be determined that a change order condition possibly exists in any given case during the performance of the contract, the CONTRACTOR shall promptly notify in writing the representative of the CITY and shall not implement such change until having notified the representative of the CITY. If the change is minor in the opinion of the representative of the CITY and does not involve,
 - 2.6.6.1 an adjustment in the contract sum or construction bid price, or
 - 2.6.6.2 result in extension of the contract time, or
 - 2.6.6.3 a material change in the Contract Scope of Services, then the CITY representative may authorize the change in writing to the CONTRACTOR. The CONTRACTOR shall not perform such change until receipt of such written change order.
 - 2.6.7 In the event the Change Order requested by the CONTRACTOR involves,
 - 2.6.7.1 an increase in the contract sum or construction bid price,
 - 2.6.7.2 extend the contract time, or
 - 2.6.7.3 materially change the CONTRACTOR'S scope of work or services, then the CONTRACTOR shall request a Change Order in writing and present the same to the CITY representative.
 - 2.6.8 The representative of the CITY shall determine whether this is a change order which can be allowed and, if so, what exception it would fall under. The representative of the CITY shall then document the same, attach the same to the CONTRACTOR'S request for a change order and submit the same with his recommendation to the CITY Council at its next or any subsequent regularly scheduled Council meeting for approval.
 - 2.6.9 The CITY reserves the right to institute change orders as the OWNER pursuant to the aforesaid terms and conditions.
 - 2.6.10 In no event is a change order to be executed by the CONTRACTOR prior to approval thereof by the CITY, except for emergencies.
- 2.7 **Determination of Adjustment of the Contract Sum:** The adjustment of the Contract Sum resulting from a change in the Work shall be determined by one of the following methods as determined by OWNER:
- 2.7.1. By mutual agreement to a lump sum based on or negotiated from an itemized cost proposal from the CONTRACTOR.
 - 2.7.2. Additions to the Contract Sum shall include the CONTRACTOR'S direct costs plus a maximum 15% markup for overhead and profit. Where subcontract work is involved, the total mark-up for

the CONTRACTOR and a subcontractor shall not exceed 25%. No allowance for overhead and profit shall be figured on a change which involves a net credit to the OWNER. For the purposes of this method of determining an adjustment of the Contract Sum, "overhead" shall cover the CONTRACTOR'S indirect costs of the change, such as the cost of bonds, superintendent and other job office personnel, watchman, job office, job office supplies and expenses, temporary facilities and utilities, and home office expenses.

- 2.8 Construction Schedule and Periodical Estimates: Immediately after execution and delivery of the contract and before the first partial payment is made, the CONTRACTOR shall deliver to the CITY and Engineer of Record and/or Construction Manager, a construction schedule in a form satisfactory to the CITY or Construction Manager, which may include CPM for all major trades, showing the proposed dates of commencement and completion of each of the various activities, of work required under the Contract documents, the interrelationship of each activity, sequences, resources for each and the anticipated amount of each monthly payment that will become due the CONTRACTOR in accordance with the progress schedule. The CONTRACTOR shall also furnish (1) a detailed estimate giving a complete breakdown on the contract price, and, (2) periodical itemized estimates of the work done for the purpose of making partial payments, however the same will not be considered as fixing a basis for additions to or deductions from the contract price. Scheduling is particularly critical if CONTRACTOR is a trade CONTRACTOR and adherence to the Construction Manager progress schedule is required.

NOTE: Depending upon the complexity of the work the CITY may require CPM or equivalent meeting all criteria above.

ARTICLE III TIME

- 3.0 **Time for Completion/Delays:** The CONTRACTOR hereby agrees to commence work under this Contract on the date to be specified in a written "Notice to Proceed" or thirty (30) days from the date of Contract execution, if no Notice is issued, and to fully complete the Project within NINETY (90) consecutive calendar days thereafter. The CONTRACTOR further agrees to pay to the CITY, Two Hundred Fifty Dollars (\$250.00) liquidated damages for each consecutive calendar day thereafter as hereinafter provided. Time is of the essence and a material element to this agreement.
- 3.0.1 NOTE: When maintenance periods are included in the contract for highways, bridges or similar structures, such periods shall be considered component parts of the Contract. To the extent the construction schedule contains "float," the parties agree that the same belongs to the Project and may be utilized by either party.
- 3.1 Delay: If the CONTRACTOR is delayed at any time in the progress of work by any of the following causes, the CONTRACTOR may be entitled to a reasonable extension of time as determined by the CITY in which to complete the Project. Provided, however, no such delay nor the extension of time if granted shall be grounds for a claim by the CONTRACTOR for damages or for additional cost, expenses, overhead or profit or other compensation:
- 3.1.1 Fires, abnormal floods, tornadoes or other cataclysmic phenomenon of nature.
 - 3.1.2 Strikes, embargoes, lockouts, war, acts of public enemy.
 - 3.1.3 Change orders.
 - 3.1.4 Acts of performance or delays in performance by other contractors employed by the CITY or their subcontractors.
 - 3.1.5 Causes beyond the control of the CONTRACTOR.
 - 3.1.6 Provided further, that the CONTRACTOR shall immediately give notice in writing to the CITY and follow extension of time procedures as provided for herein. The CITY expressly disclaims any liability to CONTRACTOR for any cost, expense or damage caused by other contractors, subcontractors or suppliers, including those engaged by the CITY. The CITY shall not be liable for damages or cost to the CONTRACTOR sustained due to any interference from utilities or appurtenances or from the operations of relocating the same.

- 3.2 **Extensions of Time:** All written requests for extensions of time must be submitted to Engineer of Record within ten (10) days after the occurrence of the cause for delay. The Engineer of Record shall ascertain the facts and the extent of the delay and shall recommend to the CITY Council whether it should extend the time for completing the Project. Any extension of time shall be in writing and processed as a change order.
- 3.2.1 For Change Orders requesting extensions of time due to rain, wind, flood or other natural phenomenon, the CONTRACTOR'S written request must be accompanied, at the CITY'S request, by a detailed report of weather at this site for the last ten (10) years with averages showing means and statistical deviations from mean averages to support request for extension.
- 3.2.2 No extension shall be made for delays due to rain, wind, flood or other natural phenomenon of normal intensity for the locality.
- 3.2.3 In the event any material changes, alterations, or additions are made as herein specified, which in the opinion of the Engineer of Record will require additional time for execution of any work under the Contract, then in that case, the time of the completion of the Project may be extended through change order. No extensions of time shall be given for any minor changes, alterations or additions. The CONTRACTOR shall not be entitled to any reparation or compensation on account of such additional time or extensions of time. To the extent that the construction schedule contains "float," the parties agree that the same belongs to the Project and may be utilized by either party.
- 3.3 **Right of the CITY to Terminate Contract:** If the CONTRACTOR should be adjudged as bankrupt, or if it should make a general assignment for the benefit of its creditors, or if a receiver should be appointed for the CONTRACTOR or any of its property, or if it should persistently or repeatedly refuse or fail to supply enough properly skilled workmen or if it should refuse or fail to make prompt payment to persons supplying labor for the Project under the Contract, or persistently disregard instructions of the Engineer/Architect, or fail to observe or perform any provisions of the Contract documents, fail or neglect to promptly prosecute or perform the Project in accordance with the Contract documents, or otherwise be guilty of a substantial violation of any provision of the Contract documents, then the CITY may, on giving at least thirty (30) days' written notice to the CONTRACTOR, without prejudice to any other rights or remedies of the CITY in the premises, terminate the CONTRACTOR'S right to proceed with the Project. In such event, the CITY may take over the Project and prosecute the same to completion, by contract or otherwise, and the CONTRACTOR and its sureties shall be liable to the CITY for any and all excess cost occasioned to the CITY thereby, including attorney's fees; and in any such case, the CITY may take possession of and utilize in completing the Project such appliances and plant of the CONTRACTOR or its subcontractors as may be on the site work and necessary or useful thereof. In the event of termination, the same shall not relieve the CONTRACTOR, nor any of its sureties of their obligation pursuant to this agreement. In the event it becomes necessary for the CITY to maintain any legal action against the CONTRACTOR, to enforce its rights herein, the CONTRACTOR shall pay the CITY all expenses associated therewith including a reasonable attorney's fee.
- 3.3.1 **OWNER may at any time and for any reason terminate CONTRACTOR'S services and work at OWNER'S convenience.** Upon receipt of such notice, CONTRACTOR shall, unless the notice directs otherwise, immediately discontinue the work and placing of orders for materials, facilities and supplies in connection with the performance of this Agreement. Upon such termination, CONTRACTOR shall be entitled to payment only as follows: (1) the actual cost of the work completed in conformity with this Agreement; plus, (2) such other costs actually incurred by CONTRACTOR as are permitted by the prime contract and approved by OWNER; (3) plus ten percent (10%) of the cost of the work referred to in subparagraph (1) above for overhead and profit.
- 3.4 **Liquidated Damages:** Should the work under this contract not be completed within the time specified, scheduled or as extended, it is understood and agreed that there may be deducted by the CITY or Engineer/Architect from the partial and/or final payments to the CONTRACTOR or otherwise charged to the CONTRACTOR, a sum computed at the rate of **Two Hundred Dollars (\$250.00) per day** beginning from the stated or extended date of completion and continuing for so long as the Project remains incomplete. It is understood and agreed that the above deduction is not a penalty, but money due to reimburse the CITY/OWNER for inconvenience and damage to the general public, due to the delay in the completion of the Project and is reasonable. The collection of

liquidated damages by the CITY shall not constitute an election or waiver by the CITY of recovery of additional delay or non- delay related damages from the CONTRACTOR, and the CITY expressly reserves the right to recover actual damages for other harms resulting from delay. The provisions of the liquidated damage clause shall apply and continue to apply even if the CONTRACTOR terminates or abandons the Project prior to the scheduled completion dates.

- 3.4.1 The amounts of such liquidated damages and actual damages incurred by reason of failure to complete the work stipulated in the Contract are hereby agreed upon as reasonable estimates of the costs which may be accrued by the CITY. It is expressly understood and agreed that these amounts are not to be considered in the nature of penalties, but as damages which have accrued against the CONTRACTOR. The CITY shall have the right to deduct such damages from any amount due, or that may become due the CONTRACTOR, or the amount of such damages shall be due and collectible from the CONTRACTOR or Surety.

The CONTRACTOR shall, if required, furnish satisfactory evidence as to the kind and quality of materials. In selecting and/or approving equipment for installation in the Project, neither the CITY nor Engineer of Record assume responsibility for injury or claims resulting *from failure of the equipment to comply with applicable federal, state, and local safety codes* or requirements, or the safety requirements of a recognized agency, or failure due to faulty design concepts, or defective workmanship and materials. Inspection or observation is not acceptance and shall not constitute acceptance by the CITY.
 - 6.1.1 All materials, workmanship, equipment, processes of manufacture, and methods of construction, shall be subject to inspection, examination, and test by such persons at any and all places where such manufacture and/or construction are being carried on. The Engineer of Record shall have the right to reject material, workmanship and/or equipment that are defective or otherwise not in accordance with the drawings and Specifications and require its correction by the CONTRACTOR. Rejected workmanship shall be satisfactorily corrected, and rejected material shall be satisfactorily replaced with proper material by the CONTRACTOR without charge therefore, and the CONTRACTOR shall promptly segregate and remove the rejected material from the premises. Provided; however, neither the presence nor absence of such observers nor the giving or failure to give such advice, direction or instruction shall in any manner relieve the CONTRACTOR from any contract requirement.
 - 6.1.2 Upon rejection of material and/or workmanship by the Engineer of Record or the CITY, there may be occasion where such deficiencies may be corrected more economically and timely through modification of the design versus removal and replacement. In such instances, the Engineer of Record shall provide design services on behalf of the CITY necessary for analysis and correction of the rejected work. Costs associated with hourly fees for these professional services shall be paid by the CITY and deducted from payment to the CONTRACTOR based on the actual costs incurred. Prior to beginning any analysis and accrual of associated professional service fees, the Engineer of Record shall provide the CONTRACTOR and CITY notice in writing of the intent to begin, summary of the scope of work, estimated time to complete, and estimated total fees. Any costs associated with corrective work performed by the CONTRACTOR to remedy such deficiencies shall be the sole responsibility of the CONTRACTOR.
 - 6.1.3 Neither the CITY observers nor the Engineer of Record, will be authorized to revoke, alter, relax, or waive any requirements of the Contract Documents; to issue instructions contrary to the drawings and Specifications; nor shall they direct work for the CONTRACTOR, nor unreasonably interfere with the CONTRACTOR's operations beyond the extent necessary to make certain that the Project is being carried out according to the contract requirements.
 - 6.1.4 Any advice which they may give the CONTRACTOR shall not be construed as binding the CITY in any way, nor as releasing the CONTRACTOR from any of the contract requirements.
 - 6.1.5 If the CONTRACTOR considers any work demanded of it to be outside the contract requirements, or any ruling of the Engineer of Record or an inspector to be unfair, it may immediately, upon such work being demanded or ruling made, request written instructions from the Engineer / Architect, or inspector, or within ten days file an appeal to the Engineer of Record or the CITY, stating clearly and in detail the basis of its objections. However, pending the decision on such appeal no work shall be

done in disregard of the rulings of the Engineer of Record or inspector or his instructions on items of work affected by such appeal.

- 6.1.6 The CONTRACTOR shall furnish promptly, without extra compensation, all reasonable facilities, labor, and material necessary for safe and convenient access, inspection, and tests that may be required by the Engineer of Record.
- 6.2 Authority and Duties of Observers: If CITY or consultant inspectors, whether for the Engineer of Record or Construction Manager, are being utilized, they shall be authorized and permitted to inspect all work done. The Inspector shall not be authorized to alter or waive any requirements of the Specifications. He shall have authority to call the attention of the CONTRACTOR to failure of the work to conform to the specifications and Contract. He may suspend the Project until any questions at issue can be referred to and decided by the Engineer of Record or the CITY.
 - 6.2.1 Neither the Engineer of Record, Inspector, the CITY nor other representatives for the CITY shall be responsible in any way for construction means, methods or techniques, nor for the safety of the construction work, progress, or employees of the CONTRACTOR or any subcontractors, except as set forth in the Construction Manager contract, if applicable.
 - 6.2.2 The presence of the Inspector shall not in any manner lessen the responsibility of the CONTRACTOR pursuant to this agreement.
- 6.3 Defective Work/Correction of Work by the CITY: The inspection of the work shall not relieve the CONTRACTOR of any of its obligations to fulfill its contract and defective work shall be made good, notwithstanding that such work has been previously inspected by the Engineer of Record and accepted or estimated for payment. The failure of the Engineer of Record or inspector to condemn improper workmanship shall not be considered as a waiver of any defect, whether known at the time or discovered later, or as preventing the CITY at any time subsequently from recovering damages for work actually defective. All work shall be guaranteed by the CONTRACTOR against defects in workmanship for a period of one year from date of final payment.
 - 6.3.1 Upon failure and/or neglect by the CONTRACTOR to promptly prosecute or perform the work in accordance with the contract documents, including any requirements with respect to the construction schedule, plans or specifications, the CITY may, without prejudice to any other remedy it may have, correct such deficiencies and may deduct the actual cost thereof from payment, then or thereafter due to the CONTRACTOR.
- 6.4 Disagreement: Should any disagreement or difference arise as to the estimated quantities or classifications or as to the meaning of the drawings or specifications, or any point concerning the character, or acceptability or nature of the several kinds of work, or construction thereof, the decision of the Engineer of Record shall be final and conclusive and binding on the CONTRACTOR.
- 6.5 Stop Work Orders: During unseasonable weather all work must stop when the Engineer of Record so directs and all work must be suitably protected by CONTRACTOR at all times. However, the Engineer/Architect shall be under no obligation to stop work on the Project. If the Project is stopped, the CONTRACTOR shall not be entitled to extra compensation for delays or problems associated with the stoppage.
- 6.6 Progress Meetings: The CONTRACTOR shall conduct regular progress meetings during the course of the Project at least once a month or more often if requested by the CITY or Engineer of Record. - 7.0 **Substantial Completion:** "Substantial completion" shall be that degree of completion of the Project or a defined portion of the Project, as evidenced by the Engineer of Record's written notice of Substantial Completion, sufficient to provide the CITY, at its discretion, the full-time use of the Project or defined portion of the work for the purposes for which it was intended. "Substantial Completion" of an operating facility or operating component of the Project shall be that degree of completion that has provided a minimum of seven (7) continuous days of successful, trouble-free operation in a "fully automatic" manner acceptable to the CITY and Engineer of Record and with all redundant systems fully operational. All equipment contained in the Project, plus all other components necessary to enable the OWNER to operate the facility in the manner that was intended, shall be complete on the substantial completion date.
- 7.0.1 When the CONTRACTOR considers that the Project, or where acceptable to the CITY, a designated portion thereof is substantially complete, the CONTRACTOR shall prepare and submit to the Engineer of Record a list of items to be completed or corrected and request an inspection for Substantial Completion. The failure by the CONTRACTOR to include any items on such list does not alter the responsibility of the CONTRACTOR to complete all work in accordance with the Contract Documents. After inspection and/or if an operating facility, after a minimum of seven (7) continuous days of successful, trouble free operation has been achieved during startup, the Engineer of Record may, at his sole discretion, issue a written notice of substantial completion for the purpose of establishing the starting date for specific equipment guarantees or warranties, and to establish the date that the CITY will assume the responsibility for the cost of operating such equipment.
- 7.0.2 Said notice shall not be considered as final acceptance of any portion of the Project or relieve the CONTRACTOR from completing the remaining work, including any remaining performance or acceptance testing, within the specified time and in full compliance with the Contract Documents. Specifically, the issuance of a written notice of Substantial Completion shall not relieve the CONTRACTOR of his obligation to promptly remedy any omissions and latent or unnoticed defects in the Project covered by the written Notice of Substantial Completion.
- 7.1 **Final Inspection:** Upon notice from the CONTRACTOR that its work is complete, the Engineer of Record and/or other representatives of the CITY shall make a final inspection of the work or Project and conduct test or tests if applicable. The Engineer of Record shall notify the CONTRACTOR of all apparent and/or visible instances where the Project fails to comply with the plans and specifications and Contract documents, as well as any defects he may discover (punch list). The CONTRACTOR shall immediately make such alterations as are necessary to make the Project comply with the plans and specifications and to the satisfaction of the Engineer of Record.
- 7.1.1 Upon completion of all such repairs in a satisfactory manner, and when the Engineer of Record has determined that the work or Project is acceptable under the contract, including this provision and after publication of final completion and all other requirements of final payment as provided for in this agreement, then he shall issue a final certificate of payment to the CITY stating that the balance is due the CONTRACTOR, less such amounts as may have been withheld by the CITY from time to time as provided in the Contract documents. In recommending to the CITY that it make such final payment to the CONTRACTOR, the Engineer of Record shall also issue a certificate of final acceptance wherein he shall recommend to the CITY that it accept the Project and/or work as final and complete pursuant to the Contract documents.
- 7.1.2 Verification, approval, inspection, final inspection, issuance of final acceptance, issuance of final certificate of payment, action or approval by the CITY upon the final certificate of payment or final acceptance shall not in any way relieve the CONTRACTOR of responsibility for faulty materials or workmanship
- 7.1.3 All warranty or guarantee periods shall commence and start to run from the date of substantial completion.
- 7.2 **"As Built" Drawings:** Unless waived by the CITY representative, the CONTRACTOR must provide to the CITY a set of "as built" drawings acceptable to the CITY as a component part of the Project prior to final payment.

- 7.3 **Final Cleanup:** Before final completion and final acceptance, the CONTRACTOR shall remove from the CITY's property or rights-of-ways and from all public and private property, all tools, scaffolding, false work, temporary structures and/or utilities, including the foundations thereof (except such as the CITY permits in writing to remain); rubbish and waste materials resulting from its operation or caused by its employees; and shall remove all surplus materials, leaving the site clean and true to line and grade, and the Project in a safe and clean condition ready for use and operation. In addition to the above, the CONTRACTOR shall be responsible for the following special cleaning for all trades as the Project shall have been completed:
- 7.3.1 Cleaning of all painted, enameled, stained or baked enamel work: removal of all marks, stains, fingerprints and splatters from such surfaces.

- 7.3.6 In the case of failure to comply with the above requirements for any part of the Project within the time specified by the Engineer of Record, he may cause the work to be done and deduct the cost thereof from the contract price on the next or succeeding application for payment, or in the event that the cost exceeds the balance due the CONTRACTOR, bill the CONTRACTOR for the excess.
- 7.4 **Notice of Completion:** The CONTRACTOR shall, immediately after the completion of the Project and acceptance by the OWNER as provided for herein, give notice as required by Ala. Code §39-1-1(f) by an advertisement in some newspaper of general circulation published within the CITY or county wherein the Project has been done for a period of four (4) successive weeks. The advertisement shall advise interested parties to contact both the CONTRACTOR and the specific CITY representative. The CITY'S representative shall be named along with his proper mailing address. **In no instance shall a final payment be made upon the Contract until the expiration of thirty (30) days after the completion of the Notice.** Proof of Publication of said Notice shall be made by the CONTRACTOR to the City of Fairhope by affidavit of the Publisher and a printed copy of the notice published.
- 7.4.1 Provided, however, that the requirements hereinabove stated for notice and advertisement shall not apply to contractors performing Contracts of less than Fifty Thousand Dollars (\$50,000.00) in amount and the governing body of the City of Fairhope so as to expedite final payment, shall cause notice of final completion of such contract to be published one time in Baldwin County and shall post notice of final completion on the City of Fairhope's bulletin board for one (1) week and shall require the CONTRACTOR to certify under oath that all bills have been paid in full. Final settlement with such CONTRACTOR may be made at any time after the notice shall have been posted for one (1) entire week.
- 7.4.2 **NOTE: When maintenance periods are included in the Contract for highways, bridges or similar structures, such periods shall be considered component parts of the Contract.**
- 7.5 **Final Payment:**
Upon completion of the Project by the CONTRACTOR and acceptance by the CITY'S representatives of all work required of the CONTRACTOR for the Project, but not until thirty (30) days after completion of the notice, the amount due the CONTRACTOR pursuant to the Contract Documents shall be paid upon the presentation by the CONTRACTOR to the CITY'S representative of the following:

- 7.5.1 A properly executed and duly certified voucher for payment, verified by engineer/architect, or other CITY representative, including therewith evidence that all payrolls and all amounts due for labor and materials, other than claims for damages due to tort, have been fully paid and satisfied and there are no outstanding claims or demands associated with the work on the Project.
- 7.5.2 A release of all claims and claims of lien against the CITY from the CONTRACTOR and all major subcontractors (the CITY may waive the requirement for subcontractor releases) arising under and by virtue of the contract, on the form attached, duly executed by the CONTRACTOR and with the consent of the surety. The CONTRACTOR may specifically except claims of the CONTRACTOR from the operation of the release if specifically excepted therefrom in stated amounts and the reason therefor. The CONTRACTOR may with the consent of the CITY representative, if any subcontractor refuses to furnish such a release, furnish a bond with surety satisfactory to the CITY representative to indemnify against such claims.
- 7.5.3 **Proof of Publication of Notice of Completion** including affidavit of publisher and a printed copy of the notice so published, as provided by law.
- 7.5.4 In accordance with Ala. Code §39-2-12(c), a non-resident contractor shall satisfy the CITY that he or she has paid all taxes due and payable to the State, the CITY and all applicable political subdivisions.
- 7.6 **Acceptance of Final Payment Constitutes Release:** The acceptance by the CONTRACTOR of the final payment shall release the CITY, the Engineer of Record, as representatives of the CITY, and their officers, employees, agents, and sub-consultants from all claims and all liability to the CONTRACTOR for all things done or furnished in connection with the Project, and every act of the CITY and others relating to or arising out of the work except claims previously made in writing and still unsettled. No payment, however, final or otherwise, shall operate to release the CONTRACTOR or his Sureties from obligations under this Contract and the Performance Bond, Payment Bond, and other bonds, warranties and guarantees as herein provide.

ARTICLE VIII WARRANTY AND GUARANTEES

- 8.0 Warranty and Guarantee:
- 8.1. **Warranty:** The CONTRACTOR warrants to the CITY and the Engineer of Record that all materials and equipment furnished under this Contract will be new unless otherwise specified and that all work, materials and equipment will be of good quality, free from fault and defects and in conformance with the contract documents. The CONTRACTOR shall promptly correct such defects upon receipt of a written notice from the CITY to do so. This obligation shall survive the termination of the Contract.
- 8.5.1 Un-remedied defects identified for correction during the warranty period described herein before, but remaining after its expiration, shall be considered as part of the obligations of the warranty. Defects in material, workmanship, or equipment which are remedied as a result of obligations of the warranty shall subject the remedied portion of the Project to an extended warranty period of 1 year after the defect has been remedied.
- 8.5.2 Repetitive malfunction of equipment shall be cause for equipment replacement and an extension of the guarantee period for the equipment to a date 1 year following acceptable replacement.
- 8.5.3 The CONTRACTOR further assumes responsibility for a similar guarantee for all work and materials provided by subcontractors or manufacturers of packaged equipment components. The CONTRACTOR also agrees to hold the CITY and the Engineer of Record and employees harmless from liability or damages, including the Engineer of Record's and attorneys' fees, and cost and expenses of litigation of any kind arising from damage due to said defects. If the CONTRACTOR fails to make the repairs and replacements promptly, or in an emergency where delay would cause serious risk, or loss, or damage, the CITY may have the defective work corrected or the rejected work removed and replaced, and the CONTRACTOR and his Surety shall be liable for the cost thereof. The CONTRACTOR during the warranty period shall repair/replace as rapidly as possible any and all equipment, materials, etc., which are found to be defective. Should any items not be repaired/replaced within thirty (30) days from the time it is reported to the CONTRACTOR by the CITY, then the warranty period shall be extended on that item for a period equal to the time that the item has remained defective, incomplete, or inoperable as determined by the CITY. The CONTRACTOR must certify that the item has been corrected.
