

**ADDENDUM 5**  
CITY OF FAIRHOPE

**Bid 039-19 Side Stream Storage Vessels**

EXTENSION: The opening date for Bid 039-19 Side Stream Storage Vessels has been extended from October 10, 2019 at 2:00 p.m. until October 24, 2019 at 2:00 p.m.

CLARIFICATION: The question regarding the corrosive nature of the wastewater being stored in the vessels has raised a concern with the bid, and in particular the coating system of the tank. The City of Fairhope wants to make sure we communicate our goals for how these units will function so the product manufacturer we work with is fully aware of our expectations for the use of these vessels and has prepared the interior and exterior coating to accommodate that use without significant maintenance concerns for an acceptable time frame. The City of Fairhope will need to research the options that may be required to make sure we are looking at compatible, or approved equal, systems with each bid. We very much appreciate the time and effort that goes into a bid process and regret that we feel compelled to further define our needs and more fully explore the coating system that is appropriate for this application. We trust each contractor bidding this project will respect the City's desire to better define our intent and any changes we feel compelled to make in the specifications are in the best interest of the project.

Bidders are to sign and include signed **Addendum 5** with submitted bid documents.
