Arts Alley Project Update

Look for exciting news on the arts components of this project, funded by a grant from the Alabama Department of Transportation and Metropolitan Planning Organization, should begin in late May!

The plan, which focuses on the alley that runs beside the Fairhope Parking Garage between Section and Church Street, includes a transportation hub and public restroom while also updating drainage, lighting and surfaces and adding landscaping.

Construction on the project is expected to take approximately 180 total days, with a goal of having the alleyway ready to go on or before Tree Lighting on November 18th. There may be impacts to traffic and parking as work commences and continues throughout the summer, but the end result is expected to be a huge upgrade for the downtown area.

Church Street Drainage Project Update

The Church Street drainage project is continuing on that major thoroughfare in the Central Business District. Construction on the first section, from Oak to Magnolia, is wrapping up as work on the second section, from Magnolia to Fairhope Avenue, will soon begin.

This project will include infrastructure upgrades in addition to the new stormwater solutions being implemented. Impacts to the section from Magnolia to Fairhope Avenue are expected through the summer.

Thank you for your patience as we continue to improve our City!
