**A. Questions Submitted Via Email:**

1. I wanted to ask clarification about the requirement of the contractor license number. We are registered to do business in the State of Alabama with the Secretary of State and have performed these services in the State in the past. Do we need a contractor license to submit a proposal?
  - A. A State of Alabama General Contractor's License is not required for the submission of the proposal. The City does ask for proof of any licensing required for this type of service in the State of Alabama.
