Questions Submitted Via Email:

1. Will engineered drawings be issued for this project? The only drawings I am seeing is what has been provided by Musco. We will need information on the electrical service sizing, location, installation methods, conduit and conductor sizing, etc. Or will this be a full design build?
 - A. This bid is for the setting and installation of the poles and lights. The City is doing the electrical in house and will supply the electrical to the poles. The Contractor will be responsible for constructing and setting the poles in the correct locations and aiming the lights as indicated in the Musco drawings.
