

**QUAIL CREEK GOLF COURSE WILL BE CLOSED ALL DAY  
THURSDAY OCTOBER 6<sup>TH</sup>!  
Please see the attached email:  
Golf Course – Clubhouse – Driving Range will all be closed!**

Good morning.

Tomm is requesting that the course be closed the whole day on Thursday, Oct.6<sup>th</sup> in order to apply pre-emergent herbicide to the whole course wall to wall. This pre-emergent application is to get a handle on the Poa Annua weeds that we have experienced the last several years as well as other winter perennial weeds. The course will already be closed the morning hours, we are asking that it remain closed the rest of the day to get everything sprayed and watered in before golfers are allowed for re-entry. I will be taking the Parks spray rig to help out as well to make sure we get everything covered.

Thank you for your consideration.
