

## Fairhope Pedestrian & Bicycle Committee

1. Call to order.
2. Review/Approve March Meeting minutes.
3. Administrative Items-(All)-Bike Valet Update (Bill)
4. **Meeting with Richard Johnson (Rosalie)**
  - a. Will the Committee's request to have Sharrow Markings painted on South Mobile from Fels Ave to Pier St and Share the Road and Bicycles Yield to Pedestrians signage have to be reviewed/approved by the Traffic Safety Committee? Do we have a timeframe when this can be accomplished?
  - b. For the signage referenced above, will the City allow Pro Cycle and Tri to purchase the signs through their non-profit organization? See attached e-mail from Morgan to Fairhope Bike Project
  - c. Is Public Works going to place sidewalk striping on Fels Ave and So. Section St around the Rambo Service Station? If so, is there a timeframe for completion of the striping?
  - d. What is the status of the Bike Repair Station for the EST near Pier St? Do we have a timeframe for installation of the Bike Repair Station?
  - e. What is the status of the order for bike racks? How many were ordered?
  - f. Mr. Nigel Temple lives in Colony Place. He had submitted an e-mail with concerns for pedestrian safety involving high speed vehicles and lack of crosswalk lighting to alert drivers of pedestrians at crosswalks. The committee reviewed his concerns and recommends:
    1. Installation of pedestrian activated flashing crosswalk signs for the crosswalks on Twin Beach-west of Pirate Drive, Twin Beach/Boothe Rd/Founders Dr intersection, and on Twin Beach, east of Summer Lake St,
    2. Traffic calming solutions should be implemented to slow traffic on Twin Beach as it has become a high speed corridor, and
    3. Designation of the section of Twin Beach Rd to Summer Lake Street as "School Zone" with appropriate lower speed limits during school traffic timeframes.
  - g. Do these recommendations require the Traffic Safety Committee review/approval? If so, how do we get the recommendations to the Traffic Safety Committee? If not, how do we move ahead with these recommendations?
  - h. Does the 311 System provide you with Monthly Work Statistics or statistics on the number of completed work orders and number of monthly delayed work orders? This information was requested by a committee member. The committee feels this would be good information to provide to the public to demonstrate the system's efficiency and the Public Work Department's workload.
  - i. We have not had a City Employee Representative during our last two meetings. Having a City Employee Representative at the meetings is crucial to the committee members receiving the most up to date information concerning various projects. Additionally, the City Employee Representative can answer our questions during the meetings and this will cut down on the number of questions we will need to direct to you after the meetings. Can you designate an employee or group of employees that could share the attendance duties?
5. Working Waterfront Project Status Update- (**Chris R & Chris K**)
6. Triangle Property Project Status Update-(**Katie**)

*As always, we appreciate everyone's time, commitment and hard work.*

April 4th, 2023-4:00 PM  
Board Room  
Fairhope Public Library

7. "Open Forum" discussion of any topics not on the agenda.
