**Questions Submitted Via Email:**

1. Looking over the specs, they call for Regency stainless steel work table. Can these be substituted for the Atosa brand?
  - A. All other brands of Stainless Steel Commercial Kitchen Equipment will be deemed equivalent as long as they meet the following: dimensional, gauge, material type, construction and capacity. The ATOSA Work Table (Cut Sheet Attached) would not be deemed equivalent due to the 430 Stainless Steel. Grade 304 (specified) provides more corrosion resistance and thus greater longevity than grade 430.
