RE: Fairhope Paving Projects
Final Award Recommendation

Mr. Eslava,

Attached is the final list of roadways selected by the City of Fairhope for the Fairhope Repaving Projects, Project No. PW002-11. We have prepared quantities to the best of our ability to produce a summary cost for final award to Mobile Asphalt. We expect there to be minor adjustments to the quantities during the course of construction.

This summary reflects the negotiated prices from nearly \$125/ton in the original bid to \$85/ton received from Mobile Asphalt during negotiations. It should be noted that the negotiated price also includes mobilization costs and traffic control.

Should you have any questions or should you require any additional information, please do not hesitate to call.

Sincerely,

Micah Jones, P.E.
Project Engineer
Baldwin County Branch
