FOR IMMEDIATE RELEASE:

Zulu Flight Training and Continental Motors Plan “Learn to Fly” Day

FAIRHOPE, Ala. – Zulu Flight Training and Continental Motors will hold a “Learn to Fly” day on Saturday, May 24, from 9 a.m. – 4 p.m. at H.L.Sonny Callahan Airport. Admission is free. Events and activities will include Discovery Flights, Young Eagles Flights, aircraft displays, educational seminars, inflatables and more. Hamburgers, hotdogs and other refreshments will be available free of charge.

“The purpose of the event is to promote general aviation and how easy it is to access it,” said Bill Ross, Director of Product Support and Mattituck Services at Continental Motors, Inc.

Free Discovery Flights will be offered to prospective flight training students by Zulu Flight Training instructors.

For ages 8-17, Young Eagles Flights will be held thanks to the generosity of the local Experimental Aircraft Association members. Participants will get a chance to experience the process of flying from start to finish. For children under 8, there will be inflatables, paper airplane making stations and ice cream.

Ross emphasized that the event will allow young people to be exposed to potential careers in aviation. In addition to flights, instructors will provide educational seminars on how to become an airplane mechanic and pilot.

“The Mobile and Baldwin county areas are quickly becoming an aviation area for which many careers can be fostered,” said Ross. “We want to raise awareness on how easy it is to become a pilot, how aircraft ownership is not out of reach and how anyone can learn to fly.”

Zulu Flight Training specializes in professional flight instruction with the aid of simulation training. Zulu is located at the Eastern Shore Centre in Spanish Fort.

To schedule a time slot for a Discovery Flight, please contact the Zulu office at info.zuluflytraining.com or call 251-753-2332. To learn more about the Young Eagles program, please visit Zulu Flight Training’s website: www.zuluflytraining.com.
