The Comprehensive Annual Financial Report (CAFR) of the City of Fairhope, Alabama (the "City") for the Fiscal Year ending September 30, 2012 is hereby submitted. Responsibility for both the accuracy of the data and the completeness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included. The reader is directed to the Management's Discussion and Analysis section of this report for discussion and insight into financial results and impacts of significance during the fiscal year.

## REPORTING ENTITY

The City of Fairhope, incorporated in 1908, is governed by a Strong Council / Weak Mayor form of government, with each official elected on an at-large basis for a four-year term, and has a population in its police jurisdiction of 29,318.

The financial reporting entity includes all funds of the primary government as well as its component units, the Fairhope Public Library and the Fairhope Airport Authority. Component units are legally separate entities for which the primary government is financially accountable. The component units are reported in separate columns in the financial statements to emphasize the legal separation from the primary government, as well as to differentiate the financial positions, results of operations and cash flows from those of the primary government.

In addition to the Public Library and Airport Authority, the government provides natural gas, electricity, water and waste water services for its citizens, as well as police and fire protection, sanitation and recycling services, maintenance of streets and infrastructure, numerous parks, recreational activities for all ages, a recreation center, a museum, a welcome

## **INTRODUCTORY SECTION**

center, a public golf course, indoor and outdoor swimming pools, a tennis complex, a skate park, a pet park, and many cultural events.

## **ECONOMIC CONDITION AND OUTLOOK**

The City of Fairhope showed significant economic growth during the year. The revenue from new construction and building permits, inspection and impact fees increased over 45% from the prior year. Total revenue from these key economic indicators was \$931,385 for the year, an increase of \$291,436.

Fairhope enjoys a strong sense of community ownership and responsibility among City officials and local citizens, resulting in active community participation and involvement in all current City projects and issues. Clean industry within the City supports health services and higher education. In addition, Fairhope gains strong economic stability from the significant industrial and commercial development in surrounding Baldwin County cities and in neighboring Mobile County. Austal Shipbuilding and the newly-acquired Airbus aircraft manufacturer, both located within 30 miles of Fairhope, promise to positively impact commercial growth and property values in our area. These factors, along with citizen involvement in planning, and strong city management provide strength and promise for continued economic good health for the City of Fairhope.

## **MAJOR INITIATIVES**

For the Year:

Sales tax receipts for the fiscal year totaled over \$4.89 million, exceeding the budgeted projection by approximately \$148,000. As part of the sales tax ordinance, one half of each month's sales tax receipts must go into reserves, to be used for debt prepayment and capital improvements, as authorized by the City Council. The sales tax reserve account balance at fiscal year-end totaled \$7 million.

Fairhope and surrounding Eastern Shore and Gulf coast cities continue to enjoy increasing revenues from tourism and corporate functions. Lodging tax and sales tax receipts, major indicators of tourism, remained strong during 2012, increasing 14.8% and 6.7%, respectively, over the prior year. The Mayor, City Council, and City department heads continue to strive to adhere to the City's established goals in planning for continuing growth, and in

maintaining the quality of life and the highest level of governmental services to all residents in the City.

Fairhope and other small cities in Baldwin County were somewhat buffered from the national economic downturn due to high percentages of resident retirees and by the majority of service, health, and education employers. At fiscal year end, the unemployment rate for Baldwin County was 6.3%, while the rate for the State as a whole was 7.5%, which closely followed the national unemployment rate in September, 2012. Both Mobile and Pensacola, neighboring cities to the west and to the east, matched the State rate of 7.5%.

The Finance Department was once again awarded the Certificate of Achievement for Excellence in Financial Reporting for its CAFR for the fiscal year 2011, by the Government Finance Officers Association (GFOA) of the United States and Canada. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to be considered for another certificate.

#### For The Future:

The City continues its focus on improvements to existing infrastructure for drainage, streets and the utilities, along with dependable excellent government services, with maximum efficiency and fiduciary responsibility. The budget for the fiscal year 2013 contains over \$5.8 million in the General, Capital Projects, Gas Tax, and Utility Funds for capital purchases, infrastructure improvements, and special projects throughout the City, as well as a decrease in transfers to 50% of operating income from the Enterprise funds into the General fund. Other improvements being completed in the next year include implementation of the new computer software program for the City. A portion of the sales tax reserve fund will be used to prepay \$2.4 million in General fund debt in the upcoming fiscal year. The Fairhope Airport Authority has plans for a \$2 million Aviation Training Center to be constructed at the Fairhope Airport to provide local flight training through cooperation between the Authority and local colleges. This endeavor goes hand-in-hand with the significant growth in the aircraft manufacturing and aerospace industries in neighboring Mobile county.

## **ENTERPRISE FUNDS HIGHLIGHTS**

The City's Enterprise funds, made up of Natural Gas, Electric, Water and Waste Water, recorded a combined increase in net assets of \$2,320,001 for the year, after transfers of \$4.17 million to support the General fund. Transfers to support the General fund represented 56% of the enterprise funds' operating income before transfers. The Enterprise funds expended over \$2.3 million in capital purchases, funded by operating income and reserves designated for capital purchases. Cash and cash equivalents in the Enterprise funds totaled \$11,849,294 at year-end, a decrease of 2% from the prior year. A ten-year old Utility Revenue Warrant was refunded at the beginning of the fiscal year to take advantage of lower interest rates, and this resulted in a reduction of \$1,436,163 in total debt service requirements for the Enterprise Funds. As part of this refunding, the Water/Waste Water Fund incurred \$8.6 million in new debt for up-grades and increased capacity for the Waste Water Treatment Plant. Total long-term debt at year-end for the Enterprise Funds was \$23,351,260, an increase of \$8,184,267. The City historically has used a short-term line of credit each year for use in funding the seasonally high electric power costs during the summer months, however this has not been necessary for the past four fiscal years. Gas line infrastructure was extended into growing areas and major electrical upgrades and improvements were completed. There are currently no plans for additional new debt for the Enterprise Funds.

## **GOVERNMENTAL FUNDS HIGHLIGHTS**

The Governmental funds are comprised of General, Capital Projects, Debt Service, and Special Revenue funds. The General Fund supports the General Administration, Police and Fire, Adult and Youth Recreation, Quail Creek Golf Course, Streets, Sanitation, and other department budgets providing City services. The Governmental Funds experienced a net surplus of \$2,226,652 for the fiscal year, including receipt of \$4.17 million in transfers from the utilities during the year. Total revenues in the General Fund, before utility transfers, increased by \$1,515,769 from the prior year. Operating expenses in the Governmental fund during the 2012 fiscal year increased by \$5,454,442, mainly due to the pay-off of a General Obligation Warrant. Capital purchases and improvements in the Governmental Fund totaled \$664,526.

The Governmental Fund Balance was \$10,580,412 at year-end, representing an increase of \$2.23 million over the prior year. Total General Fund cash was

\$11,659,785 at year-end, an increase of 43% over the prior year. Total long-term debt of the Governmental Funds at year-end was \$14,200,481, a decrease of \$765,311. A ten-year old General Obligation Warrant was refunded which resulted in an \$894,885 decrease in total debt service requirements for the General Fund. No new debt is anticipated for the Governmental Funds.

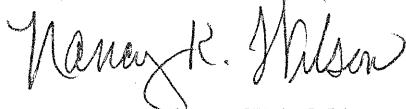

#### **INDEPENDENT AUDIT**

Alabama State law requires an annual audit by independent Certified Public Accountants. The accounting firm of Hartmann, Blackmon & Kilgore, P.C., was selected by the City to perform the audit. The Independent Auditors' Report on the basic financial statements is included in the financial section of this report.

The preparation of the CAFR on a timely basis has been accomplished with the efficient and dedicated service of the entire staff of the Finance and the Treasury Departments.

Preparation of this report would not have been possible without the leadership and support of the Mayor and City Council.

Respectfully submitted,

A handwritten signature in cursive script that reads "Nancy K. Wilson".

## INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the City Council  
City of Fairhope, Alabama

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Fairhope, Alabama, as of September 30, 2012, and for the year then ended, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Fairhope, Alabama's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Fairhope, Alabama, as of September 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have issued a report dated January 18, 2013 on our consideration of the City of Fairhope, Alabama's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis on pages 3 - 13 and the required supplementary information on pages 50 - 53 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Fairhope, Alabama's basic financial statements. The introductory section, other supplementary information and the statistical information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on them.

*Hartmann, Blackburn & Kilgore, P.C.*  
Certified Public Accountants

January 18, 2013  
Fairhope, Alabama

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Fairhope's (the "City") financial performance provides a narrative overview of the City's financial activities for the fiscal year ended September 30, 2012. The intent of this Management Discussion and Analysis (MD&A) is to review the City's financial performance as a whole. Please read it in conjunction with the City's financial reports, which follow this section and the additional information furnished in the letter of transmittal, which can be found in the introductory section of this comprehensive annual financial report (CAFR).

### FINANCIAL HIGHLIGHTS

- Assets of the City exceeded its liabilities at the close of the fiscal year by \$114,464,317, a current year increase in net assets of \$3,304,451 (pages 14 and 15).
- At the close of the fiscal year, the City's combined governmental funds, including General, Capital Projects and Other Governmental Funds, reported ending fund balances totaling \$10,580,412, an increase of \$2,226,652 from the prior year. The General Fund closed with a fund balance of \$10,295,547, an increase of \$3,135,392. The Capital Projects Fund had a decrease in fund balance of \$1,745,223 after capital expenditures of \$2,045,667 and transfers from the General Fund of \$84,504 (page 18). A detailed explanation of these increases can be viewed on page six of this Management's Discussion and Analysis (MD&A).
- City-wide, governmental and business type funds cash (including restricted cash) totaled \$36,137,595, an increase of \$13,885,708 over the previous year. Governmental Funds cash totaled \$11,951,254 at September 30, 2012 (page 14). This is an increase of \$3,495,145 over the prior year. Most of the increase, approximately \$2 million, was from sales tax receipts. The business type funds cash totaled \$24,186,341 at year end (page 20), an increase of \$10,390,563 over last year. This increase was mainly due to unspent proceeds from the \$8.6 million of additional borrowings received when issuing the Utilities Revenue Warrant Series 2011. See additional information discussed under the debt administration section on page eight of this MD&A. Revenues in the governmental funds increased \$1.5 million from the previous year. Expenses increased \$5.5 million. However \$4.2 million of that amount was the refunding of the 2002 General Obligation Warrants, resulting in a net increase of operating expenses of \$1.3 million (**Figure 3**, page 11).
- During fiscal 2012, revenues from the City's 2% sales tax totaled \$4,898,362, an increase of approximately \$308,000 over the previous year. In November 2011, the City Council amended the ordinance allocating sales tax revenues. Fifty percent of sales tax revenues in excess of \$7 million have been designated for debt payment. These funds are stipulated for debt prepayment and are to be used only for prepayment of existing debt of the General fund. The remaining fifty percent in excess of \$7 million has been designated for infrastructure improvement. These funds are to be used only for improvements to City streets, sidewalks, and parks and buildings. The amount of these reserved funds at September 30, 2012 was \$7,000,000 (pages 14 and 16).
- The combined governmental funds expended \$664,526 for capital projects and purchases, including \$84,881 for special projects, \$81,377 of impact fee revenues for recreation projects and \$498,268 for vehicles, equipment and other infrastructure additions.
- The business-type activities, Gas, Electric, Water and Waste Water activities, ended the year with income before transfers of \$6,493,803, compared to \$9,839,682 for fiscal 2011. Although revenues decreased approximately \$3.4 million, costs of energy and operating expenses also decreased about \$285,000. The utilities made transfers to the General Fund of \$4,173,802 from income. The business-type activities recorded an increase in net assets, after transfers, of \$2,320,001 (page 21). Details pertaining to these increases can be seen on pages six and seven of this MD&A.
- The City's business-type activities made additions to property, plant and equipment of \$2,393,623. Funding for these additions was prior debt issues, current income and money set aside for this purpose. The business-type activities increased long-term debt by \$7.4 million for future capital additions and upgrades (pages 22 and 34).
- As noted above, the City's total debt increased by \$7,418,956 during fiscal year 2012, yielding total outstanding debt of \$37,551,741 compared to the previous year's \$30,132,785. These borrowed funds are to be used for improvements to the water and wastewater systems. Governmental activities total debt was \$14,200,481. Business-type activities total debt was \$23,351,260 (pages 35 and 36).

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of four components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to financial statements, and 4) required supplementary information.

The Statement of Net Assets and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances.

For governmental activities, the fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements start on page 25.

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's General Fund budget. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with the budget on page 51.

### The Statement of Net Assets and the Statement of Activities

The Fund Balance Sheets and the Statements of Revenues, Expenditures, and Changes in Fund Balances report information about the City as a whole and about its activities. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and any changes in them. Consideration of the City's net assets, i.e., - the difference between assets and liabilities, is one tool to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are indicators of whether its financial health is improving or deteriorating. Consideration of other non-financial factors, however, such as changes in the City's revenue sources and the condition of the City's infrastructure, utility systems and roads, is also necessary for a valid assessment of the overall health of the City.

In the Statement of Net Assets and the Statement of Activities, we divide the City into three kinds of activities:

- Governmental activities — Most of the City's basic services are reported here, including the police, fire, public works, youth and senior recreation departments, and general administration. Gross receipts, business license fees, property and sales taxes, franchise fees, and state and federal grants finance most of these activities. Funds for Capital Projects, Debt Service, Gas Tax, and Impact Fees are also reported with Governmental activities.
- Business-type activities — The City charges a fee to customers to help it cover all or most of the cost of certain services provided. Financial information for the Electric Fund, Natural Gas Fund and the Water and Waste Water Fund is reported in this section.
- Component units — The City has two entities classified as component units, the Fairhope Public Library and the Airport Authority. Although legally separate and managed by City appointed boards, the Library and Airport Authority receive significant support from the City and the City is responsible for any deficits.

Net assets may serve over time as a useful indicator of a government's financial position. The City's assets exceeded liabilities by \$114,464,317 at the close of the most recent fiscal year, as shown in **Figure 1**, page 9 and page 14. This is an increase of \$3,304,451.

The largest portion of the City's net assets, approximately 73.4 percent, reflects its investment in capital assets (e.g. land, streets, sidewalks, buildings, infrastructure, equipment, etc.), less any related debt still outstanding used to acquire those assets. The City uses these capital assets to provide services and utilities to citizens; therefore, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets, approximately 17.8 percent, represents resources that are subject to restrictions as to how they may be used. Funds restricted for debt service were \$12,715,534; for capital projects,

\$420,909; for road maintenance and construction, \$216,196; for City Council determined emergencies, \$7,000,000. Restricted funds increased approximately \$12.5 million over the previous year.

The unrestricted net assets, approximately 8.8 percent, may be used to meet the City's ongoing obligations to citizens and creditors. Unrestricted net assets, \$10,104,720, decreased \$556,043 during fiscal 2012 (pages 9 and 14).

The City has implemented Government Accounting Standards Statement 45, Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions (GASB 45). The City's Annual Required Contribution (ARC) was actuarially determined to be \$908,803. The current year retirement premium was \$274,479. The liability for OPEB obligation at year end was \$1,985,035. This amount is reported on the Statement of Net Assets, page 14, as Net OPEB Obligation and on page 47, Note 18.

**Figure 2**, page 10, is a condensed Statement of Activities for the City as a whole for all activity types. This condensed statement includes comparative information from the prior year for the governmental and business-type activities, as well as the Library and Airport Authority component units.

### **Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds — not the City as a whole. Some funds are required to be established by State Law and by bond covenants. However, the City Council established many other funds to help control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The City's two kinds of funds — *governmental* and *proprietary* — use different accounting approaches.

- *Governmental funds* — Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Government fund information helps determine whether there are more or fewer resources that can be spent in the near future to finance the City's programs.
- *Proprietary funds* — When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are reported as proprietary, or enterprise, funds. Proprietary funds are reported separately, on an *accrual* basis of accounting, in the Proprietary Fund Balance Sheet and the Statement of Revenues, Expenses, and Changes in Net Assets. The City's enterprise funds are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows. The City's proprietary funds include the Electric Fund, Natural Gas Fund and Water and Waste Water Fund, which are used to account for the operations of the utilities.

### **Governmental Funds**

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

**Figure 3**, page 11, presents summaries of the governmental funds (General Fund, Capital Projects, Debt Service, Gas Tax, and Impact Fees) revenues and expenditures, by function, for the fiscal year ended September 30, 2012, and the amounts of increases and decreases in relation to prior year revenues and expenditures.

Governmental fund revenues increased \$1,515,769 from the previous fiscal year. Expenditures of Governmental funds increased \$5,454,442 for the same period. Included in this increase is the issuance of general obligation warrants in the amount of \$4.2 million for the purpose of refunding the 2002 General Obligation Warrants. In addition to this refunding, approximately \$765,000 was used to pay down existing debt.

The following significant events, related to revenues and expense, occurred during fiscal 2012 (the figures are rounded):

Related to revenue:

- Taxes, property and local, were up \$420,000, with the majority of the increase from sales tax.

- Licenses and permits as well as fines and forfeitures increased by \$365,000. This was primarily due to an increase in building permits of 28% over last year. The total construction value in the City increased 63% compared to last year, indicating a significant upturn in the housing market.
- State of Alabama and United States Government tax and grant income increased by \$320,000.
- The Fairhope Library Board made a payment of \$1,000 for the “bridge loan” provided by the City for uncollected donations for the construction of the new Library (page 37, Note 6). This compared to a payment last year of \$185,000, a decrease of \$184,000.
- Charges for services were up \$617,000 over last year due to an increase in utility collection and administrative services fees.
- Income from the City’s golf course, approximately \$1,000,000 was down \$20,000 from the previous year.

Related to expenditure:

- Capital outlay expenditures were approximately \$665,000, down \$810,000 from the prior year. Expenditures of \$1.5 million for fiscal 2011 included \$450,000 for fire department equipment; \$70,000 for capital improvements at the James P. Nix Center; \$170,000 for street department equipment, including a new street sweeper; \$430,000 for sanitation collection equipment; and \$280,000 for vehicles and equipment. Major capital expenditures for fiscal 2012 were: \$85,000 for special projects, \$80,000 for impact fees recreation projects and \$500,000 for vehicles and equipment.
- The City’s General Department had increases in expenditures of \$1.7 million. The major increase for 2012 was the shift of all General Fund departmental medical insurance costs into the general department. This amount was \$1 million. This was a result of the disproportionate insurance costs among the individual General fund departments. It should be noted that although this shift increased expenditures in the General Department, medical insurance costs among all General fund departments totaled \$1.5 million for the year compared to \$1.9 million last year, a decrease of approximately \$400,000. The remaining increase related to the following: \$270,000 for sidewalk expenditures, an increase in employee costs of \$292,000, and other increases relating to professional services, computer expenses, and grant expenditures totaling \$160,000.
- The Police Department had decreases of \$270,000. Major decreases for 2012 included computer expense (\$78,000) and a shift in medical insurance to the General department (\$530,000). Employee costs, however, increased \$330,000.
- The Street Department’s expenses were up \$1.2 from the previous year, primarily because of paving projects of \$1.7 million. In contrast, employee costs were down \$230,000 and medical insurance decreased by \$320,000 due to the move into the General department.
- Debt service payments, \$5.4 million, increased \$3.9 million from the previous year’s \$1.5 million total. This was due to the refunding of the 2002 General Obligation Warrants in the amount of \$4.2 million. Funds for this refunding were provided by a new general obligation issue, at favorable interest rates.
- Golf activities expenses were down \$250,000. This was primarily from the move of employee medical insurance to the general department of \$135,000 and reductions in employee costs of \$75,000.

### **Fund Balances and Net Assets**

When reviewing the City’s finances, it is important to ask if the City as a whole is in better financial condition when compared with the prior year. An indicator of the City’s financial health is whether the fund balances of the governmental and net assets of the proprietary funds increased or decreased as a result of operating activities. Fund balances for all governmental funds, including General Fund, Capital Projects Fund, and Other Governmental Funds totaled \$10,580,412, an increase of \$2,226,652. This follows an increase in fund balances of \$2,803,470 the previous year. The General Fund had a fund balance of \$10,295,547, an increase of \$3,135,392. The Capital Projects Fund had a decrease in fund balance of \$1,745,223 after expenditures of \$1,690,107 for street repaving, \$270,679 for sidewalk renovations, capital outlay of \$84,881 and a transfer from the General Fund of \$84,504. The Other Governmental Funds had fund balances of \$1,354,289 at year end, including restrictions for Debt Service of \$325,214, a decrease of \$24,806 and assigned funds reported in special revenue funds (Gas Tax and Impact Fees) of \$1,029,075, an increase of \$861,289, after expenditures of \$39,862 for road repair and maintenance and a transfer from the General fund of \$857,807. (see pages 16, 18 and 54).

Increases and decreases in revenues and expenses are discussed in the **Governmental Funds** section of this MD&A, pages 5 and 6 above.

The governmental activities’ net assets at year end were \$74,088,588, an increase of \$984,450. This increase is directly related to transfers from the utilities in the amount of \$4,173,802. The Gas, Electric and Water and Waste Water Funds had net assets of \$40,375,729 at year end, an increase of \$2,320,001 (see pages 15 and 21). The increase in the previous

year was \$5,012,535. The significant change of \$3,307,774 from last year to this year is due to a decrease in the change of net assets before transfers and investment earnings.

Capital Project and Other Governmental Funds increases in fund balance are discussed above. Following are major factors effecting increases in fund balance and net assets in the General Fund and business-type operations.

**General Fund Balance:** The General Fund had an increase in revenues of \$1,258,026. Expenditures for the General Fund were down \$540,321 from the prior year. Transfers from the proprietary funds (Gas, Electric, Water and Waste Water Funds) were \$4,173,802 for the current year, a decrease of \$653,345 from the prior year. After transfers, the fund balance of the General Fund increased by \$3,135,392 during fiscal 2012. The most significant revenue increase was related to charges for services, an increase of \$616,844 over the prior year, due to an increase in utility collection and administrative services fees. Other major increases in revenue during the year were: an increase of \$418,864 in taxes, property and local, with the majority from sales tax. Although licenses and permits as well as fines and forfeitures were up \$365,326, the Library Board's contribution toward the loan for the construction of the library was \$182,285 less than last year. The most significant decrease related to General Fund expenditures was in capital outlay. This was due to an overall departmental cutback in capital spending throughout the year. This decrease totaled \$848,335. The remainder of the difference, approximately \$308,000, relates to increases and decreases in employee costs within the various General Fund departments.

**Enterprise Operations:** The City's enterprise operations consist of the Electric Fund, Natural Gas Fund and Water and Waste Water Fund. The enterprise funds' operating revenues decreased by \$3,423,449 over the prior fiscal year. This represented an 8.93% decrease. Operating expenses decreased by \$285,251, a 1% decrease. The decrease in expenses was due to decreases in energy purchases for resale of \$1,160,103, a decrease of 7.5%. Combined, other expenses were up from the prior year, \$874,852. Of this, \$265,589 was from the increase in community development projects, \$491,068 was from other operating expenses and \$106,862 was from salaries. Utility rate calculations are based on costs of energy, expenditures for operations, debt service costs, infrastructure upgrades, capacity increases and transfers to the General Fund to fund public safety, recreational and environmental activities of the City. The City employs a consultant to assist in the rate setting process. Income for the enterprise funds, before transfers to the General Fund, was \$6,493,803, a decrease of \$3,345,879. Transfers to the General Fund were \$4,173,802, or 64% of income. For fiscal 2011, the transfers to the General Fund were \$4,827,147, or 49% of income. For fiscal 2010, the transfers were \$4,897,104 or 60%. The reduced transfers, as a percent of income, have enabled the utilities to fund capital additions and reserves for emergencies. The change in net assets of the three utilities was an increase of \$2,320,001.

### **General Fund Budgetary Highlights**

Although there is no legal requirement to establish a budget, the City of Fairhope prepares an annual budget. The preparation process involves input from the Mayor, City managers, Council members and the City's Financial Advisory and Budget committees. Page 52 of this report lists the procedure for preparing the annual budgets. No adjustments to the budget were made during the year.

On page 51, in the Required Supplementary Information section of this report, there is a budgetary comparison schedule for the General Fund.

For the purposes of this discussion, variance amounts in excess of \$50,000 in each category or department will be discussed. All amounts are rounded.

The total revenue variance was \$297,000 for fiscal 2012. Local taxes were \$104,000 over budget. Licenses and permits were \$280,000 over budget. Of that amount, \$220,000 was from business licenses, building permits and inspection fees due to heightened collection efforts and new businesses. Charges for services were \$200,000 over budget. Subdivision fees and impact fees, both related to an improved construction outlook in Fairhope. Intergovernmental revenues were down \$150,000 from budgeted state grants that were not awarded in fiscal 2012. Golf revenue was \$80,000 under budget due to decreased memberships. Other revenue was down \$53,000.

The total expenditure variance was \$1,615,000. The favorable variance in the general government was \$1,390,000. A little over half of this variance was from less than anticipated employee medical insurance costs, totaling \$735,000. The remaining \$655,000 was due to reductions in employee costs relating to reduced overtime and unfunded OPEB contributions as well as decreased grant expenditures. Budgeted grants that were not awarded during the year contributed to this decrease. Adult recreation was \$102,000 under budget due to employee cost reductions as well as decreases in maintenance and supplies. Golf was under budget \$52,000 due to modest decreases in supplies, advertising and promotion, and pro shop sales expenses. The favorable variance in capital outlay of \$414,000 was due to an overall

departmental cutback in capital spending throughout the year. In contrast, the police department had an unfavorable variance of \$286,000 due mainly to unbudgeted employee costs. Streets also had an unfavorable variance of \$55,000 due primarily to higher than anticipated gas and oil costs as well as an increase in equipment and vehicle repair expenditures.

### **Capital Assets**

As of September 30, 2012, the City's governmental activities had \$80,181,945 invested in capital assets, net of depreciation. This is a decrease of \$1,617,674 from the prior year. The business-type activities had invested capital assets, net of depreciation of \$40,948,423, an increase of \$551,704 (see Note 3, Fixed Assets, pages 33 and 34).

The City's governmental activities capital assets, at cost, were \$125,894,483 at September 30, 2012, an increase of \$1.4 million from the prior year. The business-type activities, the Gas, Electric and Water and Waste Water Funds, had capital assets, at cost, of \$75,074,671, an increase of \$2.4 million. **Figure 4**, page 12, summarizes capital assets by asset type, at cost, and changes in fixed assets during the year.

### **Debt Administration**

As of September 30, 2012, the City had long-term debt of \$37,551,741 (excluding premiums and discounts), including bonds and warrants payable, notes payable, and obligations under capital leases. This is a net increase, city wide, of \$7,394,507 from the prior year. Governmental activities' decrease in long-term debt was \$789,760. Business-type activities' increase in long-term debt was \$8,184,267. The General Obligation Warrant Series 2011, in the amount of \$4.2 million, was issued for the purpose of refunding the City's General Obligation Warrant Series dated September 1, 2002. The Utilities Revenue Warrant Series 2011, in the amount of \$16,140,000 was issued for the purpose of refunding the Utilities Revenue Warrant Series 2002 dated September 1, 2002. A portion of this issuance, \$8.6 million, will be used for upgrades to the wastewater treatment plant. See Notes 5 through 10 in the financial statements for more detail. **Figure 5**, page 13, summarizes the City's long-term debt, including compensated absences.

### **ECONOMIC FACTORS**

The City's management has set a budget decrease in revenue for fiscal 2013 of \$1.2 million. Of this decrease, \$1 million is from the reduction of transfers from the utility funds, based on transferring 50% of utility profits.

Similarly, the General Fund budget has a \$1.2 million decrease in expenses for fiscal 2013, compared to fiscal 2012. Most departments are relatively flat, or have seen cuts in their budgets. The two major decreases are: a \$708,000 decrease in the General Department due to reductions in employee costs, legal fees, computer projects, and grant expenditures and the Police department's \$379,000 decrease due mainly to a reduction in employee costs.

Gas Fund, Electric Fund and Water and Waste Water Fund operations budgeted revenues are expected to increase 10% over actual amounts for 2012. Likewise, costs of energy and operating expenses in the three utilities are projected to increase by approximately 10% over actual amounts for 2012.

For the business-type activities, reported as Gas Fund, Electric Fund and Water and Waste Water Fund, a projected excess of revenues over expenditures, before transfers, is \$7,922,022 for fiscal 2013, compared to actual \$6,493,803 for fiscal 2012. This represents a projected increase of 22%. Transfers to the General Fund for fiscal 2013 are budgeted to be \$3,910,214, compared to \$4,173,802 for 2012. This represents a decrease of 6.3%. Earnings from operations in the utilities are monitored during the year to insure that excessive amounts are not transferred.

### **CONTACTING THE CITY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need any additional financial information, please contact Jill Cabaniss, Finance Director, or Nancy Wilson, City Treasurer, at 161 N. Section Street, Fairhope, Alabama, (251) 928-2136.

CITY OF FAIRHOPE, ALABAMA

RECONCILIATION OF GOVERNMENTAL FUND BALANCE TO  
NET ASSETS OF GOVERNMENTAL ACTIVITIES  
SEPTEMBER 30, 2012

<b>Fund balance as reported on page 16</b>	\$ 10,580,412
Net Assets reported for governmental activities in the Statement of Net Assets are different from Fund Balance for governmental activities because:	
Capital assets used in governmental activities are financial resources and therefore are not reported in fund financial statements.	125,894,483
Depreciation is provided for the above capital assets in government-wide reporting, but is not in fund financial statements.	(45,712,538)
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred revenue in fund financial statements.	188,082
Long-term liabilities, including warrants, notes, capital lease obligations and OPEB obligations are not due and payable in the current period and therefore are not reported in fund financial statements:	
Warrants and notes payable (net of warrant discount of \$34,548)	(14,165,933)
OPEB obligations	(1,507,250)
Accrued interest on long-term debt is not due and payable in the current-period and therefore not included in fund financial statements.	(179,070)
Compensated absences not expected to be paid with current resources as determined under Governmental Accounting Standards are not reported in fund financial statements.	<u>(1,009,598)</u>
<b>Net Assets of Governmental Activities as reported on page 14</b>	<u><u>\$ 74,088,588</u></u>

CITY OF FAIRHOPE, ALABAMA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND  
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO  
THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2012

**Net change in fund balances - total governmental funds, page 18** \$ 2,190,308

Amounts reported for governmental activities in the Statement of Activities are different from the Statements of Revenues, Expenditures and Changes in Fund balances - Governmental Funds because:

Amortization of bond costs and discounts is not recorded in fund level statements. 27,962

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets.

Capital outlays for the year	664,526
Depreciation expense for the year	(3,109,091)
Loss on assets disposed	(173,109)

Bond and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of long-term liabilities is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

Principal payments on long term debt	4,804,960
Proceeds from issuance of long term debt	(4,015,200)

Some capital assets were acquired through capital contributions and reported as such in the statement of activities and therefore are not reported as a capital outlay in the governmental funds.

Capital contributions for the year	1,000,000
------------------------------------	-----------

Some expenses reported in the statement of activities do not require the use of current resources and therefore are not reported as expenditures in governmental funds.

Decrease in compensated absences liability	5,025
Decrease in accrued interest payable	37,022
Increase in OPEB liability	(484,297)

**Change in Net Assets of Governmental Activities, page 15** \$ 948,106

**NOTES TO THE FINANCIAL STATEMENTS**

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Fairhope, Alabama (the City) was incorporated in April, 1908. The City operates under a Mayor – Council form of government chosen at large every four years.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to municipal governments. The following is a summary of the more significant policies.

A. REPORTING ENTITY

The financial statements of the City have been prepared in conformity with the accounting principles generally accepted in the United States of America as specified by the Governmental Accounting Standards Board (GASB).

These financial statements present the primary government (the City) and its discretely presented component units, entities for which the government is considered financially accountable. The units are governmental fund type component units and are reported in a separate column of the government-wide statements to emphasize they are legally separate from the primary government. The discretely presented component units have a September 30 fiscal year-end.

Component Units

Fairhope Public Library - The Library has its own governing body which operates the City public library and is appointed by the City Council. The City provides significantly all the annual operating financial support to the Library. The Library's other sources of revenue come from State financial assistance, gifts, bequests and user fees. The Library Board does not issue separate financial statements.

Fairhope Airport Authority - The Authority operates the City Airport and has its own governing body which is appointed by the City Council. The City provides a significant portion of the annual operating funds support to the Airport. The Airport's other sources of revenue come from Hanger and Office rentals, and fuel sales. The Airport Authority does not issue separate financial statements.

These financial statements do not include the following:

- Bay Medical Clinic Board
- Industrial Board of the City of Fairhope
- Medical Clinic Board – East, West or North
- Downtown Redevelopment Authority
- Parking Authority

City management does not exert significant influence or control and does not guarantee any of their outstanding debts.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. BASIS OF PRESENTATION – GOVERNMENT-WIDE AND FUND LEVEL

Government-wide

The basic financial statements include government-wide and fund financial statements. The reporting model focuses on the City, as a whole, and major funds. Government-wide and fund financial statements categorize primary activities as governmental or business-type. In the Statement of Net Assets, governmental and business-type activities (a) are presented on a consolidated basis, (b) reflect, full accrual accounting, which incorporates long-term assets and receivables as well as long-term debt and obligations, and (c) are reported using the economic resources measurement focus. Receivables and payables between activities are eliminated in the government-wide presentation through the caption “Internal Balances” on the Statement of Net Assets.

The Statement of Activities reflects both the gross and net cost per functional category (street, police, fire, etc.) which are otherwise being supported by general government revenues (taxes, licenses, and permits, etc.). The Statement of Activities reduces gross expenses, including depreciation, by related program revenues. The program revenues must be directly associated with a function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

Fund Level

The governmental fund level financial statements are presented on a current financial resource and modified accrual basis of accounting. Since governmental fund level financial statements are presented on a different basis of accounting and measurement focus than governmental activities in the government-wide presentation, a summary is presented to explain adjustments necessary to reconcile fund level statements to the government-wide presentation.

The accounts of the City are organized on the basis of funds which are each considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped into broad fund categories as follows:

General Fund – The General Fund is used to account for all revenues and expenditures applicable to the general operations of City government which are not properly accounted for in another fund. All general operating revenues which are not restricted or designated as to use by outside sources are recorded in the General Fund.

Special Revenue Fund – Special revenue funds are operating funds for which the use of revenues (usually from taxes) is restricted or designated by outside sources. They are usually required by State or local laws to finance certain activities or functions.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Debt Service Fund – Debt service funds are used to account for the payment of interest and principal on general long term warrants and notes not accounted for in the proprietary funds.

Capital Project Fund – Capital project funds are used to account for the financial resources used to construct or acquire major capital items (other than those financed by proprietary funds).

Enterprise Funds:

The Electric Fund, Natural Gas Fund, and Water and Waste Water Fund are Enterprise Funds, which are used to account for the operations of the utilities. Utilities are provided to residents in and around the City of Fairhope. Enterprise Funds are used to account for operations which are financed or operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered through user charges and fees. Operating revenues, shown for proprietary operations, generally result from producing or providing goods and services. Operating expenses include all costs related to providing services or products. All other revenues or expenses not meeting these criteria are reported as nonoperating income or expenses.

C. CAPITAL ASSETS

The accounting treatment for capital assets depends on whether the assets are used by governmental funds or proprietary funds and fund level or government-wide reporting.

In government-wide reporting, all capital assets are reported as capital assets for both governmental-type and business-type activities. The City has not established a minimum capitalization threshold at this time. Depreciation is provided on all capital assets at the government-wide level.

In fund level reporting, capital assets are reported as expenditures by governmental funds, while they remain capital assets in proprietary funds. Depreciation is provided, only, in proprietary funds at the fund level.

Capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at estimated fair value on the date donated.

Depreciation is allocated as an expense in the Statement of Activities (government-wide level) and accumulated depreciation is reflected in the Statement of Net Assets (government-wide level). Depreciation has been provided over the estimated useful lives using the straight line rates as follows:

Plant and distribution systems	30 - 40 years
Buildings	25 - 50 years
Golf course improvements	10 - 40 years
Vehicles and equipment	3 - 10 years
Infrastructure (roads, bridges, drainage)	25 - 50 years
Runways and taxiways	75 years

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized when they become susceptible to accrual, that is when they become both “measurable” and “available” to finance expenditures of the current period. Ad valorem and other taxes collected by an intermediary are considered “measurable” when in the hand of the intermediary collecting governments and may be recognized as revenue at that time. Expenditures, generally, are recorded at the time liabilities are incurred. Revenues susceptible to accrual are: lodging tax, property taxes, and federal financial assistance programs, which are measurable and available to finance expenditures of the current period. The City uses a 60-day availability period except for FEMA disaster recovery grants which are recognized using a 12-month availability period. Revenue which is not both measurable and available includes licenses, rents, permits and fines.

The proprietary fund financial statements are presented on the accrual basis of accounting in accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*. The City has elected to apply all applicable GASB pronouncements as well as any statements and interpretations issued by the Financial Accounting Standards Board (FASB) on or before November 30, 1989, unless those pronouncements conflict or contradict GASB pronouncements. The City also elected to apply all statements and interpretations issued by the FASB after November 30, 1989, that do not conflict with or contradict GASB pronouncements.

E. CASH

The City maintains a system in which some excess cash is placed in interest bearing accounts. Cash applicable to a particular fund is readily identifiable. Interest earned is allocated to each fund based upon the proportionate balances of each fund’s cash in the account.

F. RECEIVABLES FROM UTILITY CUSTOMERS

The Electric Fund purchases at face value, the utility receivables of the Natural Gas Fund and the Water and Waste Water Fund as well as the garbage receivable of the General Fund. Purchase is made at the time customers are billed. Customer payments for all are then deposited to the Utility Account in the Electric Fund.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. INVENTORIES

Governmental fund inventories are maintained on a purchase method of accounting where items are purchased and charged to the budgetary accounts upon receipt. Year-end balances are not significant in governmental funds. Proprietary fund inventories are maintained on a consumption basis and consist of supplies for the utility plant.

H. PROPERTY TAX

All ad valorem taxes levied by the state, county and any municipality in Baldwin County are assessed and collected by the Revenue Commissioner of Baldwin County. The Baldwin County property tax calendar requires the Revenue Commissioner to assess and attach taxes as enforceable liens on property as of September 30, and taxes are due October 1 through December 31. Property taxes not paid by January 1 are considered as delinquent. Tax collections received by the County Revenue Commissioner are remitted to the City monthly. In accordance with the implementation of Governmental Accounting Standard (GASB) No. 33, revenue is recorded based upon taxes assessed and considered available. Any taxes not considered available are recorded as deferred revenue.

I. DEBT ISSUE COST

Issuance expenses on long term debt of proprietary funds are deferred and amortized, on the bonds outstanding method, over the terms of the related issues. In the fund financial statements, bond discounts, premiums, and issuance costs are treated as period costs in the year of issue. In the government-wide financial statements, bond discounts, premiums, and issuance costs are deferred and amortized over the term of the bonds using the bonds outstanding method. Bond discounts/premiums are presented as a reduction/addition to the face amount of the bonds payable whereas issuance costs are recorded as other assets.

J. DEFERRED REVENUE

The City reports deferred revenue on its fund balance sheet. Deferred revenues arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period. Revenues derived from Street Assessments are deferred and included in revenue when the receivables become available (collected). Proprietary funds defer revenue recognition when monies are collected for goods and services prior to the provision of services.

K. CASH AND CASH EQUIVALENTS

For purposes of the statements of cash flows, the proprietary funds consider all highly liquid investments, with an original maturity of three months or less, to be cash equivalents. Investments consist of U. S. Treasury money market accounts which are presented at cost which equals fair market value.

CITY OF FAIRHOPE, ALABAMA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

M. NET ASSET AND EQUITY CLASSIFICATIONS

Government-wide Financial Statements

Equity is classified as net assets and displayed in three components:

- Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) the City's own laws through its enabling legislation and other provisions of its laws and regulations.
- Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements

The fund equity of the governmental fund financial statements is classified as fund balance. In March 2009, the City adopted a GASB standard that establishes a hierarchy based on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds.

Fund balance is classified into one of the following four components:

- Restricted fund balance – Consists of fund balances with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; (2) or the City's own laws through its enabling legislation and other provisions of its laws and regulations.
- Committed fund balance – Consists of fund balances that are useable only for specific purposes by formal action of the government's highest level of decision making authority. The City's highest level of decision making lies with the Mayor of the City and the City Council. In order to establish, modify or rescind a fund balance commitment, the Mayor and City Council must pass a law by formal action committing the funds.
- Assigned fund balance – Consists of fund balances that are intended to be used for specific purposes but are neither restricted nor committed. Intent should be expressed by (1) the governing body itself, or (2) a subordinate high-level body or official who the governing body has delegated the authority to assign amounts to be used for specific purposes. The Mayor and the City Council have the power to assign fund balance amounts to specific purposes. The governing body must vote to grant authorization of assigned fund balances to specific purposes.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Unassigned fund balances – All other fund balances that do not meet the definition of “restricted, committed or assigned fund balances.”

The City considers restricted fund balances to have been spent when both restricted and unrestricted fund balances are available. Also, the City considers assigned and committed fund balances to have been spent when unassigned or unrestricted amounts are available.

N. MAJOR FUNDS

The City reports the following major Governmental funds:

- General Fund
- Capital Projects Fund

The City reports the following enterprise funds as major funds:

- Electric Fund
- Natural Gas Fund
- Water and Waste Water Fund

NOTE 2 INTERFUND TRANSACTIONS

The selling price of electric energy delivered without charge by the Electric Fund to various other funds, boards, and offices of the City of Fairhope is charged to the Electric Fund’s operations as electric energy furnished to other divisions of the City of Fairhope. The Water and Waste Water Fund and Golf Department purchase electric energy they receive, at cost.

In fiscal year 2012, the General Fund transferred to the Debt Service Fund \$5,263,705 in support of long term debt service.

In August 2012, the General Fund transferred to the Special Revenue Fund-Impact Fees the revenue and expenditures related to Impact Fees including the prior year cash balance. The current year Impact Fee revenue totals \$439,254. Revenue is reflected in the Governmental Funds and the Special Revenue Fund-Impact Fees as Charges for Services.

The utility operations transfer a portion of their earnings to the General Fund each year to support general government operations. In fiscal year 2012, the following amounts were transferred from the utility funds noted to the General Fund.

Electric Fund	\$ 1,564,847
Natural Gas Fund	1,248,609
Water and Waste Water Fund	<u>1,360,346</u>
Total	\$ <u>4,173,802</u>

In fiscal year 2012, the City transferred \$281,124 to the Airport Authority and \$600,000 to the Public Library Board, both discretely presented component units.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 2 INTERFUND TRANSACTIONS (continued)

Interfund receivables and payables at September 30, 2012 are:

	<u>Due from</u>	<u>Due to</u>
<b>General Fund</b>		
Electric	\$ 13,389	\$ -
Water and Waste Water	1,071	-
Gas Tax	760	-
Capital Projects	23,219	-
Special Revenue - Impact Fees	8,730	-
<b>Electric Fund</b>

	<u>\$ 416,239</u>	<u>\$ 416,239</u>

During the course of normal operations, the City has numerous transactions between funds to provide services, construct assets, service debt, etc. These transactions are generally reflected as interfund receivables and liabilities. Transactions reimbursing a fund for expenditures are recorded as expenditures in the disbursing fund as revenues in the receiving fund.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 4 SINKING FUNDS – PROPRIETARY FUNDS

The cash and investments in these sinking funds (bond, reserve, and replacement funds) are restricted as to their use in accordance with their respective bond indentures. Amounts in bond funds are included in current assets, while amounts in reserve funds are separately listed as restricted assets.

NOTE 5 NOTES AND WARRANTS PAYABLE – BUSINESS-TYPE ACTIVITIES

The following is a summary of revenue bonds, notes and warrants payable from the proprietary funds as of September 30, 2012:

Utilities Revenue Warrants, Series 2011 dated October 13, 2011, original debt obligation of \$16,140,000, interest rate 3.15%, payable semi-annually, principal payable December 1, 2011 through December 1, 2030.	\$15,625,000
General Obligation Warrant, Series 2011, dated October 13, 2011, original debt obligation of \$195,000, Interest at 2.55% payable semi-annually, principal payments due December 1, 2012 through June 1, 2025.	176,220
Utilities Revenue Warrants, Series 2005 dated March 1, 2005, original debt obligation of \$8,455,000, interest rate 2.20% to 4.25%, payable semi-annually, principal payable December 1, 2005 through December 1, 2020.	6,530,000
Utilities Revenue Warrants, Series 2009 dated April 2, 2009, original debt obligation of \$1,250,000, interest rate 3.85%, payable semi-annually, principal payable 2009 through 2019.	970,000
General Obligation Refunding Warrant, Series 2009, dated April 2, 2009, original debt obligation of \$61,740, interest rate 3.62%, payable semi-annually, principal payable 2010 through 2020.	<u>50,040</u>
TOTAL	<u>\$23,351,260</u>

(continued)

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 5 NOTES AND WARRANTS PAYABLE – BUSINESS-TYPE ACTIVITIES (CONTINUED)

On October 13, 2011, the City issued utilities revenue warrants at par in the amount of \$16,140,000 at a 3.15% interest rate. A portion of this issue together with the sum of \$823,453 on deposit in escrow was used to refund the City's Utilities Revenue Warrants, Series 2002, dated September 1, 2002, with an outstanding value of \$6,720,000. The Utilities Revenue Warrants, Series 2011 mature on December 1, 2030. The sum of \$6,885,825 was deposited into an irrevocable trust with an escrow agent to provide debt service payments until the warrants were called on December 1, 2011.

As a result of the refunding, the City reduced its total debt service requirements by \$1,436,163, which resulted in an economic gain (difference between the present value of the debt service payments on the old debt and the new debt) of \$354,680.

Revenue bonds, notes, and warrants payable from the proprietary funds 2011 and prior were for the purpose of financing, or re-financing, new water tanks, new water wells, UV Sewer System, new booster pump, radio system, support tower, phone system, construction of warehouse building and mechanics shop, and extensions to the City's water and sewer lines.

NOTE 6 NOTE AND WARRANTS PAYABLE – GOVERNMENTAL ACTIVITIES

The following is a governmental fund summary of long term debt at September 30, 2012:

General Obligation Warrant, Series 2011, dated October 13, 2011, original debt obligation of \$4,005,000, interest at 2.55%, payable semi-annually, principal payments due December 1, 2012 through June 1, 2025.	\$ 3,828,780
General Obligation Warrant, Series 2008, dated March 6, 2008, original debt obligation of \$1,300,000, interest at 2.91%, payable semi-annually, \$130,000 annual principal payments are due on April 1 from 2009 to 2018.	721,741
General Obligation Warrants, Series 2007 dated June 1, 2007, original debt obligation of \$7,900,000, interest rate 4.00% to 5.00%, payable semi-annually, principal payable June 1, 2008 through June 1, 2032.	6,920,000
General Obligation Refunding Warrant, Series 2009, dated April 2, 2009, original debt obligation of \$3,368,260, interest rate 3.62%, payable semi-annually, principal payable 2010 through 2020.	<u>2,729,960</u>
TOTAL	<u>\$14,200,481</u>

(continued)

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 6 NOTE AND WARRANTS PAYABLE – GOVERNMENTAL ACTIVITIES (CONTINUED)

On October 13, 2011, The City issued general obligation warrants at par in the amount of \$4,200,000 at a 2.55% interest rate. The issue together with the sum of \$151,431 on deposit in escrow was used to refund the City's General Obligation Warrants, Series 2002, dated September 1, 2002, with an outstanding value of \$4,225,325. The General Obligation Warrants, Series 2011 mature on June 1, 2025. The sum of \$4,313,491 was deposited in an irrevocable trust with an escrow agent to provide debt service payments until the warrants were called on November 15, 2011.

As a result of the refunding, the City reduced its total debt service requirements by \$894,885, which resulted in an economic gain (difference between the present value of the debt service payments on the old debt and the new debt) of \$622,430.

The General Obligation Warrant Series 2009 were issued for the purpose of refunding the City's General Obligation Warrants Series 1999.

The General Obligation Warrant Series 2008 related to construction costs on the new Library. The Public Library Board requested the City secure a warrant as a "bridge loan" until pledges from outside donors are collected and remitted to the City. In 2008, the City refunded the original short term note with a general obligation warrant to be paid over 10 years. The Library Board committed to pay costs of the Library project in excess of \$3,000,000. Excluding interest on related long-term debt, the Library project costs, to date, are \$8,070,288. As of September 30, 2012, the Library Board has provided funding of \$3,263,461 from donations and grants.

General Obligation Warrants and notes payable from the governmental funds issued prior to 2008 were for the purpose of financing, or re-financing, automated garbage equipment, fire truck pumper, city drainage projects, hurricane damage repairs and upgrade to Municipal pier, construction of new facilities, including justice center, public library, tennis complex, recreation center, outdoor swimming pool, baseball facility, and renovation of Fairhope historic museum.

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 9 BONDS PAYABLE – COMPONENT UNITS

On August 26, 2010, the Airport Authority issued Airport Improvement Refunding Bonds in the amount of \$8,935,000 at a variable interest rate. The bonds are repriced monthly by the remarketing agent at a rate to maintain market value of 100% principal. This issue was used to refund the Series 2007 Airport Improvement Bonds with an outstanding balance of \$8,845,000. The 2010 Airport Improvement Refunding Bonds mature March 1, 2020, but have mandatory redemption requirements as presented below. The bonds are limited obligations of the Airport Authority, payable solely out of appropriations received from the City of Fairhope, Alabama. The Appropriation Agreement between the Airport Authority and the City expires annually on September 30 and is renewable at the City's option. The bond rate at September 30, 2012, was 1.56%.

The following is a summary of debt service requirements to maturity of long term debt of the Airport Authority as of September 30, 2012, including estimated interest payments at 1.56% and excluding discounts related to bonds:

Year Ending Sept. 30,	Principal	Interest	Total
2013	\$ 240,000	\$ 138,202	\$ 378,202
2014	255,000	134,149	389,149

2018 - 2020	7,580,000	52,220	7,632,220
	<u>\$ 8,935,000</u>	<u>\$ 704,049</u>	<u>\$ 9,639,049</u>

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 10 LINE OF CREDIT PAYABLE

On November 28, 2011, the City established a revolving line of credit with a \$2,000,000 limit through the issuance of a general obligation warrant. The line of credit, dated November 28, 2011, bears interest at a variable rate of 80% of the One Month LIBOR Rate plus 100 basis points, and matures November 28, 2012. The interest rate at September 30, 2012 is 1.1844%. This line of credit is available to enable the City to acquire, construct and provide various public street improvements in the City.

Following is the summary of activity for fiscal year 2012:

	<u>General Fund</u>
Beginning Balance	\$ -
Advances	1,705,225
Payments	<u>-</u>

Less:			
Salaries capitalized for plant additions	<u>287,690</u>	<u>169,572</u>	<u>58,514</u>
Amount of salaries charged to operations	<u>\$ 591,319</u>	<u>\$ 568,845</u>	<u>\$ 908,331</u>

NOTE 12 RISK MANAGEMENT AND CONTINGENCIES

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City obtains coverage from commercial insurance companies and effectively manages risk through various employee education and prevention programs. There were no instances where settlements exceeded insurance coverage in the last three years.

CITY OF FAIRHOPE, ALABAMA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 12 RISK MANAGEMENT AND CONTINGENCIES (continued)

Various lawsuits are pending against the City. City management believes that the potential adverse impact of these claims is mitigated by insurance and will not be material to the financial statements of the City.

The City receives Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under the terms of the grant. City management believes such disallowances, if any, will be immaterial.

NOTE 13 COMPENSATED ABSENCES

The City accrues vacation earned by employees as well as other compensated absences with similar characteristics. Sick leave, which can be paid at termination, if certain conditions are met, is accrued based on the probability that a portion of the current employees will meet required criteria. A liability for sick leave to be paid at termination has been accrued based on estimated probability factors to years of service. The liability to employees who currently meet the criteria to receive sick leave pay has been accrued at 100% of the current hours sick leave earned at current pay rates. Accumulated unpaid vacation and sick pay are accrued when incurred in the Proprietary Funds. Amounts normally paid with expendable available financial resources are recorded in the General Fund when the obligation has matured.

Employees may accumulate vacation leave without limitation, however, the maximum accumulation of sick leave is limited to 960 hours. Employees are paid 100% of their accumulated vacation upon termination. Accumulated sick leave is paid only upon retirement to employees with 25 years or more of service, at any age, and to employees with 10 years of service who have attained age sixty (60).

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 14 PENSION PLAN

Plan Description

The City's defined benefit pension plan provides retirement and disability benefits, cost-of-living adjustments, and death benefits to plan members and beneficiaries. The plan is affiliated with the Employees Retirement System of Alabama (RSA), an agent multiple-employer pension plan. At September 30, 2011, RSA had a total of 1,145 participating units.

RSA issues a publicly available financial report that includes financial statements and required supplementary information for the plan. RSA prepares its financial statements using the accrual basis of accounting and recognizes contributions as revenues when earned. Benefits and refunds are recognized when due and payable. The report may be obtained by writing the Retirement Systems of Alabama, P. O. Box 302150, Montgomery, Alabama 36130-2150.

Substantially all employees are members of RSA. Membership is mandatory for covered or eligible employees. Vested employees may retire with full benefits at age 60 (with 10 years of service) or after 25 years of service. Retirement benefits are calculated by two methods with the retiree receiving payment under the method producing the highest benefit. The methods are: (1) Minimum Guaranteed, and (2) Formula. The Formula method usually produces the highest benefit. Under this method, the retiree receives an amount equal to 2.0125% of their average final salary (best three of last ten years) for each year of service. Disability retirement benefits are calculated in the same manner. Pre-retirement benefits in the amount of the annual salary for the fiscal year preceding death are provided to plan members.

The RSA was established as of October 1, 1945, under the provisions of Act 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for state employees, State police, and on an elective basis to all cities, counties, towns and quasi public organizations. The responsibility for general administration and operation of the RSA is vested in the Board of Control. Benefit provisions are established by the Code of Alabama 1975, Sections 36-27-1 through 36-27-103, as amended, Sections 36-27-120 through 36-27-139, as amended, and Sections 36-27B-1 through 36-27B-6. Authority to amend the plan rests with the Legislature of Alabama. However, the Legislature has granted the City authority to accept or reject various cost-of-living adjustments granted to retirees.

Funding Policy

During its 2012 session, the Alabama Legislature passed and the Governor signed into law changes in the pension plan effective January 1, 2013. Employees hired prior to January 1, 2013 (Tier 1 employees) must contribute 5% of his or her gross earnings, except law enforcement who must contribute 6%, to the pension plan. Employees hired on or after that date (Tier 2 employees) will contribute on gross earnings at a rate of 6%, except law enforcement who must contribute 7%. The City is required to contribute at an actuarially determined rate. At September 30, 2012, the rate is 9.81% of covered payroll. At September 30, 2012, RSA decreased the City's contribution rate to 9.38% for Tier 1 employees and established at rated of 7.08% for Tier 2 employees. The contribution requirements of plan members and the City are established and may be amended by RSA.

(continued)

CITY OF FAIRHOPE, ALABAMA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 14 PENSION PLAN (continued)

A Tier 1 employee may retire after 25 years of credited service and receive pension benefits equal to 2.0125% of the employee's average final salary multiplied times years of credited service. A Tier 2 employee may retire after attainment of age 62 and ten years of service years and with benefits equal to 1.65% of the employee's average final salary multiplied by years of credited service. Average final salary is defined as the average of the three highest years' salary out of the last ten years of service. The pension plan also provides death benefits and disability benefits as determined by state statutes.

The following is the Schedule of Funding Progress – Employee Retirement System which provides trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liability for benefits over time.

<sup>1</sup> Reflects changes in actuarial assumptions (as of September 30, 2001).

<sup>2</sup> Reflects effect of DROP if unit elected to enroll prior to June 20, 2003.

<sup>3</sup> Reflects effect of DROP if unit elected to enroll prior to May 18, 2004.

<sup>4</sup> Reflects effect of DROP if unit elected to enroll prior to August 4, 2005.

<sup>5</sup> Reflects changes in actuarial assumptions.

<sup>6</sup> Reflects impact of Act 2011-27, as well as Act 2011-676, which increases the member contribution rates by 2.25% beginning October 1, 2011 and by an additional 0.25% beginning October 1, 2012.

Annual Pension Cost

For 2012, the City's annual pension cost of \$949,822 was equal to the City's required and actual contributions. The required contribution was determined as part of an actuarial valuation (dated September 30, 2011) using the entry age actuarial cost method. Amortization is determined using the level open percent method over a remaining amortization period of 30 years. The actuarial assumptions included (a) 8.0% investment rate of return, (b) projected salary increases ranging from 3.75-7.25% per year, and (c) no cost-of-living adjustments. Both (a) and (b) included an inflation component of 3.0%. The actuarial value of the City of Fairhope's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a 5-year period.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 14 PENSION PLAN (continued)

Trend Information

<u>Fiscal Year Funding</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
9/30/12	\$ 949,822	100%	-
9/30/11	\$ 1,056,337	100%	-
9/30/10	\$ 1,086,667	100%	-
9/30/09	\$ 1,091,972	100%	-
9/30/08	\$ 985,276	100%	-
9/30/07	\$ 804,930	100%	-

Funded status and Funding Progress

The funded status of the plan as of October 1, 2011 was as follows:

Actuarial accrued liability (AAL)	\$ 33,999,408
Actuarial value of plan assets	<u>23,552,946</u>
Unfunded actuarial accrued liability (UAAL)	\$ 10,446,462
Funded ratio	69.3%
Covered payroll	\$ 11,028,263
UAAL as a percentage of covered payroll	94.7%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress is presented in these notes to the financial statements. This schedule presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liability for benefits over time.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 15 DEPOSIT AND INVESTMENT RISK

At September 30, 2012, the City had investments in U. S. Treasury money market mutual funds through its trustee agreement for debt sinking funds. The fair value was \$1,979,594 (\$320,963 in governmental activities and \$1,658,631 in business-type activities). The average maturity of the portfolio was 50 days.

**Investment Risk** – The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk** - State statutes authorize the City’s investments. The City is authorized to invest in U.S. Government obligations and its agencies or instrumentalities, direct obligations of the state, or SEC registered mutual funds holding like securities. The City has no investment policy that further limits investment choices. As of September 30, 2012, the City’s mutual fund investments principal stability rating was AAAM as reported by Standard & Poor’s.

**Custodial Credit Risk** - The City is a participant in the Security for Alabama Funds Enhancement (SAFE) Program, a multiple financial institution collateral pool, administered by the State of Alabama. The program, by law, provides administration of pledged collateral coverage for all governments and agencies in the state and requires qualified financial institutions to provide collateral to the administrator adequate to secure all deposits of public funds in that financial institution. The State guarantees deposits identified as “public funds” will be adequately secured by insurance or collateral. Any collateral shortages of one financial institution are assessed to other member financial institutions.

NOTE 16 COMMITMENTS

The City has various contractual commitments outstanding at year-end. The commitments under these contracts totaled \$1,346,043. The commitments funded from governmental activities will be \$1,676 and from business-type activities will be \$1,344,367.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 17 DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits employees to defer a portion of their salary until future years. The plan was established by and is administered by the Retirement Systems of Alabama. Any plan changes are at the discretion of the administrator. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The City makes no contributions to the plan.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the individuals who participate in the deferred compensation plan and are not subject to the claims of the City's general creditors.

NOTE 18 POST EMPLOYMENT HEALTH BENEFITS

Plan Description – The City provides a comprehensive medical plan to eligible retirees and their spouses through the City's group health insurance plan (the Plan), which covers both active and retired members. The Plan is a single-employer defined benefit healthcare plan administered and governed solely by the City and does not issue a publicly available financial report.

Effective with the Fiscal Year beginning October 1, 2008, the City implemented Government Accounting Standards City Statement No. 45, *Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions* (GASB 45), for its financial disclosure and reporting purposes. The City intends to fund the OPEB Obligation pursuant to GASB 45 to the extent the funding requirement is not met by the retiree health care premiums paid outright. During the year ended September 30, 2012, the City's portion of health care funding cost for retired employees (retiree premiums) totaled \$274,479.

Contribution Rates – Eligible retirees are subject to employer contributions for medical benefits equal to 90% of the premium. At September 30, 2010, the valuation date, 29 participants were receiving benefits under various provisions of the Plan. Complete plan provisions are included in the official plan documents.

Employees do not contribute to their post employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents.

Annual Required Contribution – The City's Annual Required Contribution (ARC) is an amount actuarially determined using the Projected Unit Credit Method in accordance with GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a level percentage of pay, open amortization period of thirty years. The remaining amortization period at September 30, 2012, was 30 years.

(continued)

CITY OF FAIRHOPE, ALABAMA

NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 18 POST EMPLOYMENT HEALTH BENEFITS (continued)

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan using operating funds, and changes in the City's net OPEB obligation to the Plan:

Annual required contribution	\$ 665,895
Interest on net OPEB obligation	-
Adjustment to ARC	<u>242,908</u>
Annual OPEB cost (expense)	908,803
Current year retiree premium	<u>(274,479)</u>
Change in net OPEB obligation	634,324
Net OPEB obligation – beginning of year	<u>1,350,711</u>
Net OPEB obligation – end of year	<u>\$ 1,985,035</u>

Interest expense on the net OPEB contribution in the amount of \$54,028 was considered not significant and was not recorded in 2012.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation (Asset)</u>
9/30/12	\$ 908,803	30.2%	\$ 1,985,035
9/30/11	908,803	37.0%	1,350,711
9/30/10	611,853	39.3%	778,165
9/30/09	611,853	33.5%	406,645

Funded Status and Funding Progress – The first actuarial valuation under GASB 45 was as of September 30, 2008, and the most recent actuarial valuation was as of September 30, 2010. There were no assets accumulated in the Plan, however, market value will be used to value such assets. At September 30, 2010, the Actuarial Accrued Liability (AAL) was \$8,093,303, which is defined as that portion, as determined by a particular actuarial cost method (the City uses the Projected Unit Credit Method), of the actuarial present value of post employment plan benefits and expenses which is not provided by normal cost. The funded ratio is developed below.

Schedule of Funding Progress

<u>Actuarial Valuation Dated</u>	<u>Actuarial Value of Assets (a)</u>	<u>Actuarial Accrued Liability (AAL)* - Entry Age (b)</u>	<u>Unfunded (AAL) (UAAL) (b-a)</u>	<u>Funded Ratio (a/b)</u>	<u>Covered Payroll (c)</u>	<u>UAAL as a Percentage of Covered Payroll (b-a)/c</u>
9/29/2011	\$ -	\$ 8,093,303	\$ (8,093,303)	0.0%	\$ 11,028,263	73.4%
9/30/2010	\$ -	\$ 8,093,303	\$ (8,093,303)	0.0%	\$ 11,212,324	72.2%
9/30/2009	\$ -	\$ 6,740,895	\$ (6,740,895)	0.0%	\$ 11,396,085	59.2%
9/30/2008	\$ -	\$ 6,740,895	\$ (6,740,895)	0.0%	\$ 11,189,043	60.2%

\*GASB 45 permits the AAL determined at September 30, 2010 to be used for two consecutive years

(continued)

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 18 POST EMPLOYMENT HEALTH BENEFITS (continued)

Actuarial Methods and Assumptions - The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan (the plan as understood by the employer and the plan members) at the time of the valuation and on the pattern of sharing costs between the City and its plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the City and plan members in the future. Consistent with the long-term perspective of actuarial calculations, the actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial liabilities and the actuarial value of assets.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The following assumptions were made:

*Turnover Rate* - An age-related turnover scale based on actual experience has been used.

*Retirement Rate* - Based on past experience, it has been assumed that entitlement to benefits will commence at the earlier of: first, completion of 25 years of service, regardless of age; and, second, attainment of age 60 and completion of 10 years of service.

*Health Care Cost Trend Rate* - The expected rate of increase in medical cost is based on a 10.5% projected increase for 2011 graduated down to an ultimate annual rate of 5% for 2018 and beyond.

*Mortality Rate* - Life expectancies were based accordingly to the 1994 Group Annuity Mortality Table set forward three years for males and set forward two years for females. Special tables are used for the period after disability retirement.

*Investment Return Assumption (Discount Rate)* - Based on the assumption that the ARC will be funded, a 4% annual investment return has been used in this valuation.

*Inflation Rate and Projected Salary Increase* - A rate of 4.5% has been used for both inflation and projected salary increases.

*Method of Determining Value of Benefits* - The "value of benefits" has been assumed to be the portion of the premium after retirement date expected to be paid by the City for each retiree and has been used as the basis for calculating the actuarial present value of OPEB benefits to be paid.

NOTE 19 OPERATING LEASES

The City holds various leases with entities for use of City property. Most of these leases are monthly and insignificant. In addition, the City rents certain facilities to groups for events and activities on a per use basis.

CITY OF FAIRHOPE, ALABAMA  
NOTES TO THE FINANCIAL STATEMENTS  
SEPTEMBER 30, 2012

NOTE 20 LEASE EXPENSE

The City rents equipment, primarily, on monthly arrangements. The leases are not significant to the operations of the City.

NOTE 21 SUBSEQUENT EVENTS

The City has evaluated subsequent events through January 18, 2013, the date which the financial statements were available to be issued.

In fiscal year 2013, the City paid off General Obligation Warrant, Series 2008 totaling approximately \$721,000.

In fiscal year 2013, the City paid off the line of credit totaling approximately \$1,700,000.

There were no other material subsequent events which require disclosure at September 30, 2012.

CITY OF FAIRHOPE, ALABAMA

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
SEPTEMBER 30, 2012

NOTE 1 BUDGETS AND BUDGETARY ACCOUNTING

Although no legal requirement to establish a budget exists, the City Council follows these procedures in establishing the budgets:

- (1) The City Council has appointed a Budget Committee to work with City Management to prepare a proposed working budget for the fiscal year commencing the following October 1. The budget includes proposed expenditures and the means of financing them for the upcoming year. Line item budgets are used for administrative control. The level of control for the detailed budgets is at the department head/function level.
- (2) Council budget meetings are conducted to obtain manager and taxpayer input.
- (3) The budget is enacted through council action.
- (4) Reports are submitted to the City Council, showing approved budget and actual operations.
- (5) The Mayor is authorized to transfer budgeted amounts within departments within any fund; however, any revisions that alter the total expenditures of any fund or transfer of funds between departments must be approved by the City Council.
- (6) Formal budgetary integration is employed as a management control device during the year for the General Fund.
- (7) Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).
- (8) Budgetary data, if any, for Capital Project Funds are budgeted over the life of the respective project and not on an annual basis.
- (9) All appropriations lapse at year-end.

CITY OF FAIRHOPE, ALABAMA  
INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT  
AUDITING STANDARDS

Honorable Mayor and Members  
of the City Council  
City of Fairhope, Alabama

We have audited the basic financial statements of the City of Fairhope, Alabama as of and for the year ended September 30, 2012, and have issued our report thereon dated January 18, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Fairhope, Alabama's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Fairhope, Alabama's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of City of Fairhope, Alabama's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Fairhope, Alabama's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information of management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
